Pricing

The applicable base monthly service charge is based on a 2-Year minimum contract term and is billed monthly in-advance (or optionally in larger time-increments on request) and is set-out below on an assumed user population of an initial 200 users based on a 15% concurrency.

- The user cost of this would be £30.00 per month

Discounts are available for volume options or upfront payments.

An additional storage charge is also applicable; dependent on the storage capacity required. Initial service is provided with upto 1TB of storage.

Additional Charges

1. ECM Cloud Support Services are procured separately under the SynApps Solutions support solution proposal on G-Cloud.
2. Protective Monitoring is additional service to be included, and is charged at £3,500 per month and is delivered through our partner Wavenet.
3. Storage pricing per Tb is additional to the base monthly service charge and is £240 per 1Tb, includes backup. Storage charges are charged monthly in advance.
4. Licensing is not included in the hosting cost and Customers may use their existing Alfresco Digital Business Platform subscription or alternatively this can be purchased directly through SynApps Solutions.

Financial recompense model for not meeting service levels

If the service level falls below the stated availability percentage (excluding Planned and Emergency maintenance periods), the Client will be eligible for Service Credits. Service Credits will be calculated as a percentage (5%) of the infrastructure fees for the monthly billing period during which the failure occurred (to be applied at the end of the billing cycle).

Ordering and invoicing process

Billing for the service is monthly. Payment can be via Purchase Order

On-boarding charges will be invoiced at time of order placement.
