

MuleSoft Pricing and Packaging – Core Principles

- Anypoint Platform is the entry point to MuleSoft's capability and approach
- Scale appropriately with usage & value
- Align to familiar pricing models
- Default: cloud management for on-premises cores

Anypoint Platform Base Subscription – Minimum 12-month Subscription

For a single price - £69,200¹

Bundled & pre-packaged configuration, which includes:

- Gold Level Support (8x5, 24hr response, 20 x number of support incidents)
- 12-month subscription term • Anypoint Runtime Manager
- Anypoint Design Centre
- Anypoint API Portals
- Anypoint Exchange
- Anypoint Connectors - Select
- 2x production / 4 x pre-production runtimes (cloud or on-premises)
- 2x VPCs

What can you do?

- Integrate applications (ESB/iPaaS)
- Design, build & run services & APIs
- Run in the cloud or on-premises
- Manage from the cloud

MuleSoft Anypoint Platform can be augmented to include:

- 24/7 Support offerings
- High availability environments
- Additional Production & Non-Production Runtime cores (cloud or on-premises)
- API Management & Analytics
- On-premises management
- Premium Connectors (licensed per environment)
- Multi-year subscription model

These additions are subject to further quotation reference and approval. Add-on components are not included in the base price. Contact info@openanswers.co.uk for further information.

¹ Note that final pricing is subject to MuleSoft approval and is dependent on currency exchange rates at the time.
