Best-in-Class Delivery Approach

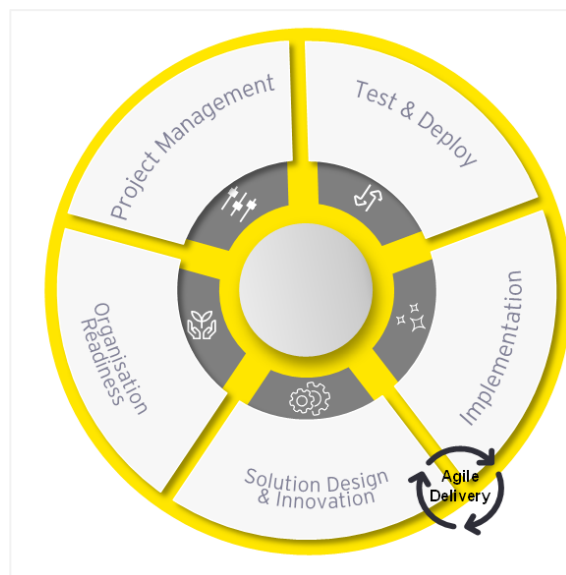

Figure 1 - Our Delivery Approach

Organisation Readiness: Focus on Transformation, Not Just Implementation

We bring end-to-end business transformation experience to design the right business processes and add focus on change management to ensure successful adoption. We recognise that any change has its challenges, and we partner with our customers every step of the way to ensure success.

Project Management: Proactive Hands-on Project Coordination

EY's proactive approach to project management prioritises structured governance and hands-on coordination of stakeholders. Our programme management team will provide high-visibility project management metrics and a laser-focus on progress tracking to drive towards the overall timeline, cost, quality and risk goals.

Solution Design: Innovative and Expert Technology Practise

We have a depth of experience delivering innovative SAP Analytics Cloud solutions across organisations in all industries and have pre-built content and accelerators to increase your speed to value. We understand that our customers often have complex data and interface landscapes, and we will minimise risk by taking an approach that enables controlled delivery and seeks to avoid regret spend and change fatigue.

Implementation: Lean Delivery Methodology, Focused on Delivering Value

EY have created a lean hybrid-Agile delivery methodology that is tailored to customer requirements. We aim to prove design concepts early through MVPs and pilot releases for key processes, functions, or business area. Beyond that, we will focus functionality releases based on their value, by aligning to customers' business priorities.

Test & Deploy: Delivering Technology at Speed

EY's approach to testing is pro-active and continuous. Successful test completion forms a key exit criteria for every programme phase, to assure the build quality of all deliverables and to drive the adoption of sustainable change.

Our approach to Hypercare focuses on reducing business disruptions after a major implementation/go-live. We work collaboratively with customers through clearly defined Hypercare transition activities.

EY's SAP Analytics Cloud Capability

EY has in-depth technical expertise in all aspects of SAP Analytics Cloud:

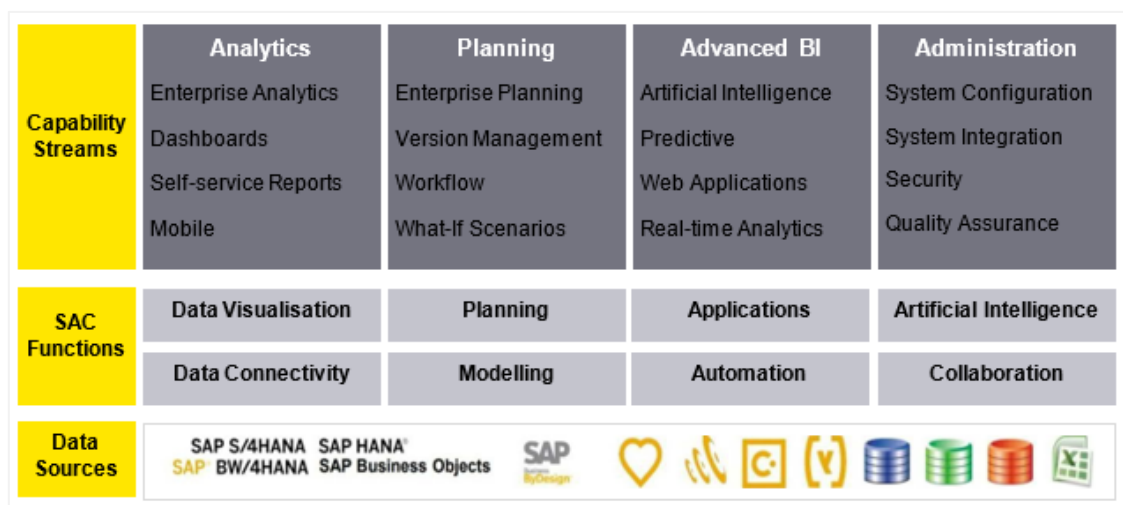

Figure 2 – Our SAP Analytics Cloud Capability

Analytics & Business Intelligence

We increase trust in data, develop insight-led solutions and drive incremental value through the provision of analytics strategy & end-to-end data & analytics implementation services to our clients.

Key Offerings:

S/4HANA Analytics Inception

Reporting & analytics are a fundamental part of an SAP transformation programme and essential to realise the benefits case. Our tailored analytics approach quickly establishes a target architecture which is optimised to deliver effective insight across the end-to-end business process, and an accelerated implementation method to reduce implementation costs & TCO.

Enterprise Analytics Services

We support organisations to implement, optimise or re-imagine their SAP reporting and analytics estate from data & analytics strategy, enterprise & hybrid analytics architecture, data warehouse optimisation, data visualisation & digital boardroom, and end-to-end

implementation of LoB solutions or global template reporting suites across all core SAP process areas.

Enterprise Performance Management (Planning)

We help our clients define their EPM strategy and roadmap, we provide value by harnessing our functional experience and technical knowledge, and we develop effective solutions that enable clients to automate and streamline their EPM processes.

Key Offerings:

EPM Strategy, Roadmap and Assessment

We help define the strategy, determine the roadmap, and advise on the vendor solution, using our extensive experience delivering xP&A solutions across a range of industries.

Enterprise Planning & Reporting

We advise and implement enterprise planning solutions that deliver value based on business defined planning processes.

Financial Consolidation

We help customers bridge the chasm between ERP and financial consolidation to enable an integrated, transparent and automated reporting process.

Advanced Business Intelligence (BI)

We help organisations drive insight & value out of their data using advanced data analytics. EY's SAC capabilities include custom applications, artificial intelligence, machine learning and predictive modelling.

Key Offerings:

Advanced Analytics Enablement

Whether using Smart Insights (AI) to discover hidden insights, Joule copilot (generative AI) to automate reporting, or SAC's predictive engine to forecast key performance metrics, EY can help customers leverage the native advanced analytics capabilities on offer in SAP Analytics Cloud to accelerate the journey from data to insights.

Custom Web Applications

Utilising SAC's application development environment, EY can design and build custom web applications, specifically tailored to deliver a precise user experience or support a specialised business requirement, process or workflow.

Real-Time Analytics

EY can help customers accelerate the time to insights using SAP Analytics Cloud's native integration with SAP S/4HANA or SAP Datasphere to access and report data from across their organisation in real-time.

Administration & Support

We help organisations configure, maintain, and support their SAP Analytics Cloud systems to ensure optimal usability and performance. The EY offering of administration and support services includes system configuration, integration of SAP and non-SAP data sources, user and data security, quality assurance and performance assessments.

EY | Building a better working world

About EY

EY exists to build a better working world, helping to create long-term value for clients, people and society and build trust in the capital markets.

Enabled by data and technology, diverse EY teams in over 150 countries provide trust through assurance and help clients grow, transform and operate.

Working across assurance, consulting, law, strategy, tax and transactions, EY teams ask better questions to find new answers for the complex issues facing our world today.

EY refers to the global organisation, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. Information about how EY collects and uses personal data and a description of the rights individuals have under data protection legislation are available via ey.com/privacy. EY member firms do not practice law where prohibited by local laws. For more information about our organisation, please visit ey.com.

Ernst & Young LLP

The UK firm Ernst & Young LLP is a limited liability partnership registered in England and Wales with registered number OC300001 and is a member firm of Ernst & Young Global Limited.
