

DCC

Defence Cyber Certification

STRENGTHEN YOUR PLACE IN THE DEFENCE SUPPLY CHAIN

DCC is a comprehensive, organisation-wide assessment developed by the MOD and IASME to enhance cyber resilience across the UK defence supply chain. Whether you're a prime contractor or a SME supplying the defence sector, DCC helps demonstrate that your organisation doesn't just claim security compliance – it proves it.

Not only have Arcanum worked closely with the MOD and IASME to shape and refine the DCC scheme, we are proud to have been the first to help an organisation achieve certification under the new scheme. With our extensive experience working with the defence supply chain and in-depth knowledge of DCC, Arcanum is here to support you.

WHAT'S CHANGED?

The shift to DCC introduces more rigorous and meaningful assurance.

- **Applicant guide**
- A key requirement that demonstrates how your business meets **DefStan 05-138** controls through structured governance.
- **Stronger Focus on Governance**
- Certification isn't about ticking boxes – it's about showing how cyber security is embedded across your organisation.
- **Three-Year Certification Validity**
- Once certified, your organisation remains eligible to support MOD contracts for three years, subject to annual check-ins.

WHY ARCANUM?

As a DCC Certification Body, Arcanum is uniquely placed to support your journey from preparation to certification.

- **Pre-assessment support** to review your current posture and identify gaps.
- **Assistance with your Applicant Guide** tailored to your structure.
- **Expert guidance** from Chartered Cyber Security Professionals.
- **Sector-specific insight** from consultants who work in the Defence sector.
