

Arcanum is a National Cyber Security Centre (NCSC) Assured Cyber Security Consultancy specialising in Risk Management, Audit & Review, Security Architecture, Cyber Resilience Audit and CHECK Penetration Testing. Since our inception in 2008, we have been committed to delivering expert security advice and services to businesses, safeguarding them against the ever-evolving landscape of cyber threats.

PROVEN EXPERIENCE

With over 17 years' experience, we have worked with organisations across various industries, tailoring our services to meet their unique security needs. Our team of skilled consultants combines technical proficiency with strategic insight, enabling us to deliver practical and effective solutions.

WHY ARCANUM?

- **Trusted Certification:** Our status as an NCSC Assured Cyber Security Consultancy ensures that our clients receive services aligned with national standards.
- **Comprehensive Services:** From risk assessments to penetration testing, we cover all aspects of cybersecurity to protect your organisation.
- **Proven Track Record:** Our long-standing reputation in the industry demonstrates our commitment to excellence and reliability.
- **Tailored Solutions:** We adapt our methodologies to suit the specific needs and challenges of your business.

LET US SECURE YOUR FUTURE

Cyber security is more than a service; it is an ongoing commitment to safeguarding your business in an increasingly connected world. At Arcanum, we partner with organisations to build resilient security frameworks that empower them to operate confidently.
