

CYBER ESSENTIALS AND CYBER ESSENTIALS PLUS SERVICE DEFINITION DOCUMENT

WHAT IS CYBER ESSENTIALS?

Cyber Essentials is a UK government and industry backed cyber security certification scheme. It helps you guard against the most common cyber threats and demonstrates your commitment to cyber security. Having the Cyber Essentials certification is now a mandatory requirement for working on most central government contracts.

WHY GET CERTIFIED?

- Complying with Cyber Essentials certification significantly reduces the risk of your organisation becoming the victim of a cyber attack.
- The certification shows your customers that you care about the security of their information and help you win their trust.
- Cyber Essentials is mandated in most UK government tenders and the supply chain of many FTSE 100 companies.

WHY ARCANUM?

Arcanum have been a certification body since 2014, and have supported multiple organisations in achieving their Cyber Essentials certification. Our team of assessors can provide guidance during consultation sessions, or if you are ready to conduct a self-assessment, we are able to certify your submission.

HOW LONG DOES IT TAKE?

- You will get access to the web portal to complete the questionnaire immediately after paying.
- It usually takes up to 48 hours to have your answers marked and the Cyber Essentials certificate issued.
- The length of time it takes for Cyber Essentials Plus certification is tailored to your organisation.

Complete and submit the online questionnaire

Arcanum check the questionnaire

Cyber Essentials Certificate is awarded

Arcanum run external vulnerability scans

On-site testing is conducted by an Arcanum Assessor (as required)
