

G-Cloud 15 Service Description

***Qualys software licensing and support
renewals***

Table of Contents

1.	PROPOSED SERVICES DELIVERED	2
2.	QUALYS CLOUD SOFTWARE	2
3.	NHS CARECERT VULNERABILITY DASHBOARD	3
4.	SUPPORTING SERVICES	3
APPENDIX A	VMDR	4
APPENDIX B	QUALYS PATCH MANAGEMENT	5
APPENDIX C	POLICY COMPLIANCE	6

1. Proposed Services Delivered

Delivering our focused cyber security services to the NHS and healthcare, we work in partnership with Qualys to offer licensing, renewals, initial discovery/readiness, solution design, migration/adoption, support/optimisation and management of their Qualys software, including licensing consultancy services to help our clients get the most from their Qualys deployment.

2. Qualys Cloud Software

We are able to provide Qualys Software to support organisations with the following subscriptions:

ASSET MANAGEMENT

- CyberSecurity Asset Management (CSAM) ***MOST POPULAR***
- External Attack Surface Management (EASM)

VULNERABILITY & CONFIGURATION MANAGEMENT

- Vulnerability Management, Detection & Response (VMDR) ***MOST POPULAR***
- Enterprise TruRisk Management (ETM)
- Web App Scanning (WAS)
- Cloud Workload Protection (CWP)
- Kubernetes and Container Security (KCS)

RISK REMEDIATION

- Patch Management (PM) ***MOST POPULAR***
- Custom Assessment and Remediation (CAR)

THREAT DETECTION & RESPONSE

- Multi-Vector EDR
- Context XDR

COMPLIANCE

- Policy Compliance
- File Integrity Monitoring (FIM)

CLOUD SECURITY

- TotalCloud (CNAPP)
- Cloud Security Posture Management (CSPM)
- Infrastructure as Code Security (IaC)
- SaaS Security Posture Management (SSPM)
- Cloud Workload Protection (CWP)
- Cloud Detection and Response (CDR)
- Kubernetes and Container Security (KCS)

More information can be found at <https://www.qualys.com/>

3. NHS CareCERT Vulnerability dashboard

Cloud21 develop and maintain a Qualys dashboard to aid NHS Trusts/providers in understanding compliance with CareCERTs and supports evidence for DSPT submission for patching compliance.

4. Supporting services

Cloud21 have a number of service wraps and professional services to help organisations stand up the Cloud services / Architecture and any related on premise components or configuration including Qualys products.

These could include:

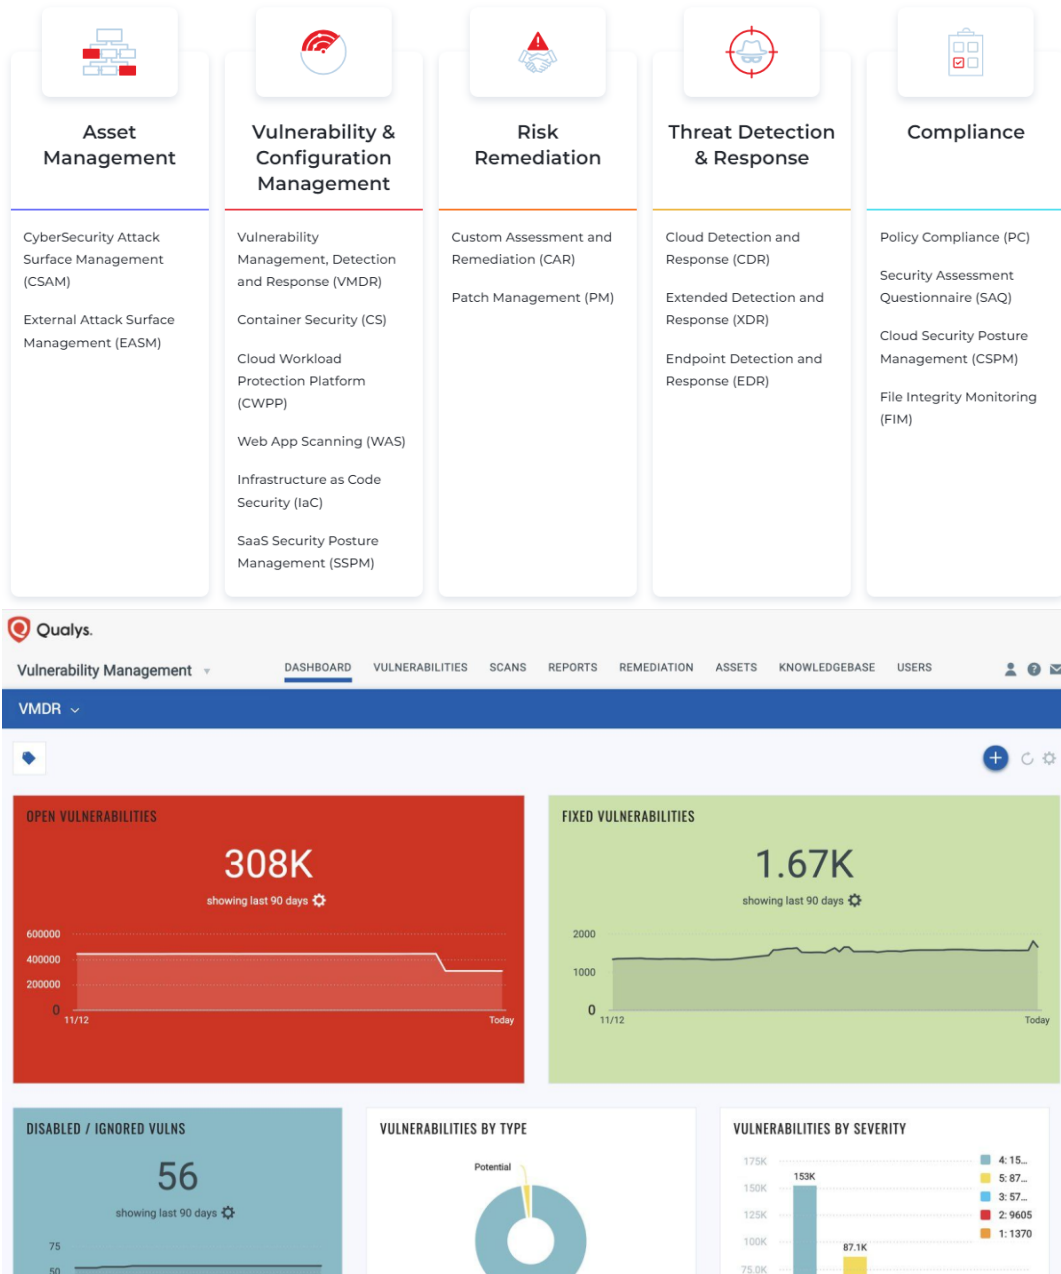

- Infrastructure build support for Qualys servers on-premise
- Setting up patching schedules / scripts
- Scheduling reports
- Assessing vulnerabilities for the infrastructure / endpoints
- Interpreting risk and developing risk management strategies with client

We offer pricing that is engagement dependant, please do contact us to discuss but also please see our published rate card.

Appendix A VMDR

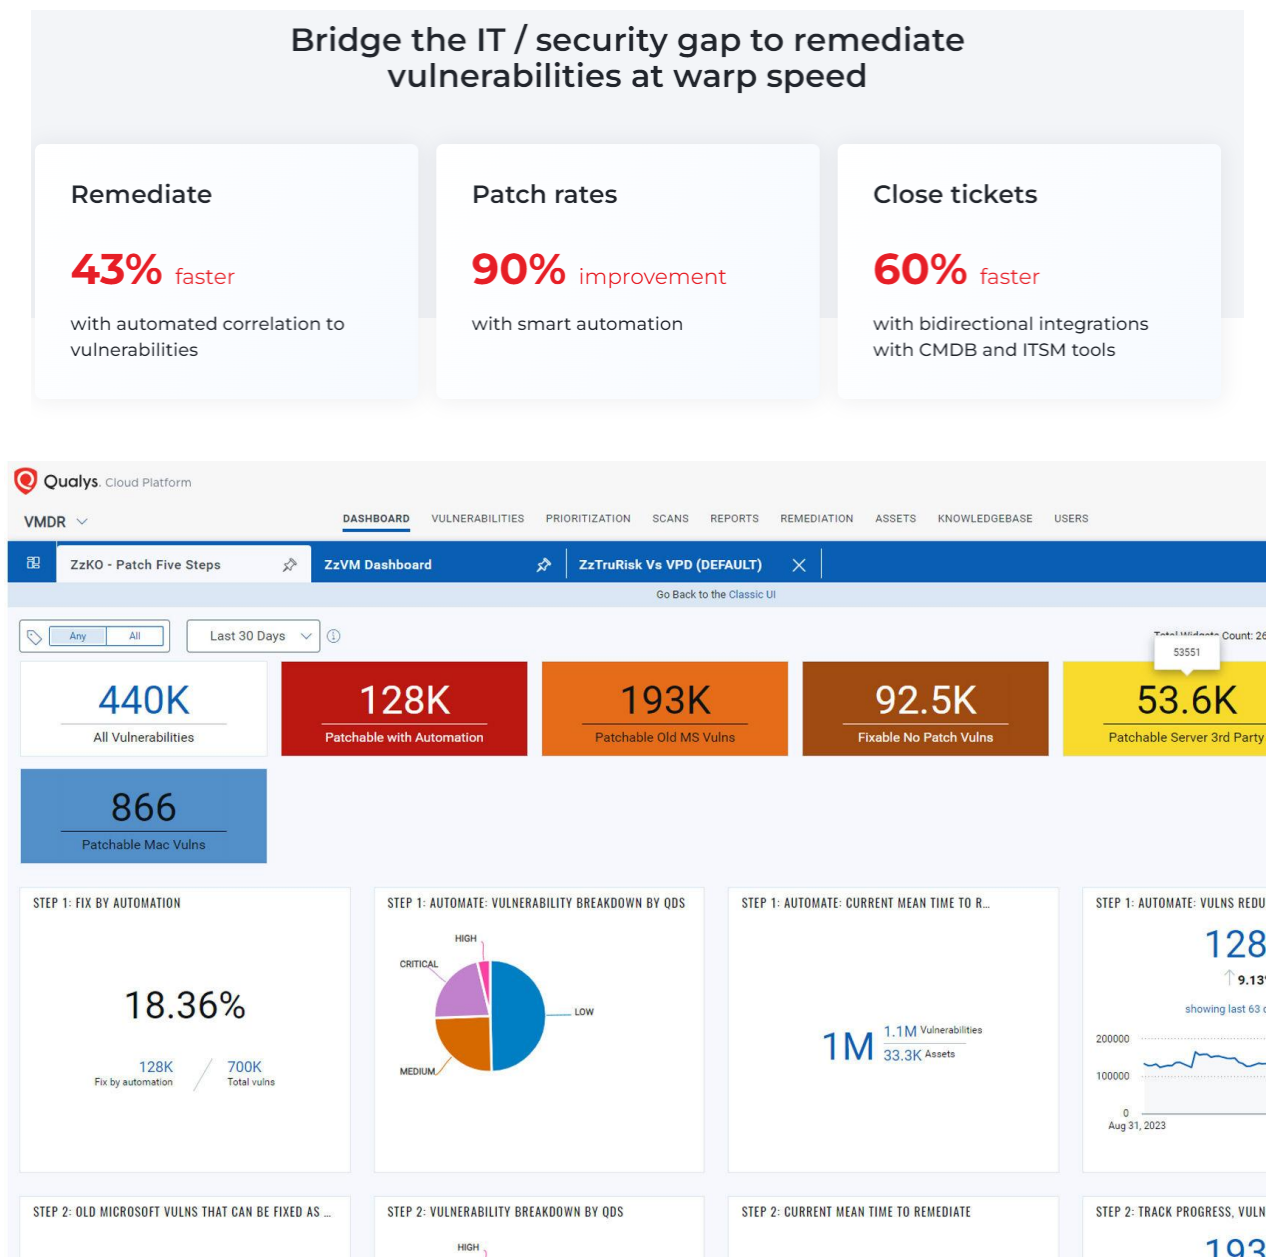

20+ powerful apps seamlessly integrated in a single, unified platform

No more navigating through a complex maze of risk data from disparate security tools. Enterprise TruRisk Platform apps are fully integrated and natively share the data they collect so you can articulate the financial impact of your security posture in real time.

Appendix B Qualys Patch Management

Prioritize risk reduction while minimizing operational impact with the industry's most advanced solution for remediation.

Appendix C Policy Compliance

Reduce security breach and compliance risks seamlessly with a single cloud solution

Boost compliance coverage from

1000 policies

22,000 controls, 400 technologies, and 100 regulations

MITRE ATT&CK coverage

53% improvement

by adding PC to VMDR

Improve security posture with

79% increase

to security hardening score
