Who We Are

01

We're a global technology group
that help organisations

thrive through change

“Change will be the only constant
in the next decade”

Sir Demis Hassabis
CEO, Google DeepMind

Our Core Capabilities

Cloud & Data Transformation

Accelerating growth with strategic cloud migration, FinOps optimisation, and robust data architecture on Google Cloud and AWS.

- **Cloud Infrastructure:** Google Cloud and AWS Infrastructure & Engineering, Google Cloud Partner-Led Premium Support, and 24/7 Managed Services.
- **Strategic Migration:** Cloud Migration (Legacy apps, VMware, Data Warehouse) to Google Cloud (GCP, BigQuery, Gemini, Workspace).
- **Data & Optimisation:** Data Architecture and Infrastructure Design, Cloud FinOps & GreenOps (Cost Reduction/Sustainability), and BI Dashboard Development.

Digital & AI Engineering

Building the future through custom application development, intelligent AI agents, and exceptional user-centric design.

- **Custom AI & ML:** Custom Vertex AI Agent Development, Gemini Enterprise AI Agents, and Data Science/ML/AI for Healthcare.
- **Digital Product Design:** Service Design, User Experience (UX), Customer Portals, and Mobile/Web Application Design & Build.
- **Platform Development:** Frontend Engineering, Agentic Software, Knowledge Tools, and eCommerce/eLearning Platform Development.

Cyber Security & Resilience

Protecting your business with proactive managed services, expert strategy, and immediate incident response. We embed security across your entire digital footprint.

- **Managed Defense:** Managed Detection and Response (MDR/SOC) and Vulnerability Management as a Service (VMaaS).
- **Security Strategy:** Cyber Security Strategy and Transformation, Cyber Resilience, and Security in Supply Chain.
- **Trust & Compliance:** Data Protection Consultancy (One Trust, Inquiry Support), Cyber Security Frameworks, and Cyber Incident Response.

We deploy **frontier** technology to help our customers:

Stay
Secure

01

Work Smarter

We build the secure, modern, scalable infrastructure, apps and workflows that boost bottom lines.

Key Outcomes

- Increased profitability
- Scalability, reliability & Uptime
- Resilient, "secure by design" architecture
- Trusted, timely, self-serve insights & analytics
- Predictable, optimised cloud spend
- Collaborative, digital workspaces
- Carbon footprint reduction
- Reduced total cost of ownership

Enabling the UK's National Data Transformation via Google Cloud (Integrated Data Service)

Secure Data

UK

Government

National Data Transformation

Google Cloud

Challenge The ONS needed to build the Integrated Data Service (IDS) – a secure, national data platform on Google Cloud. The critical obstacle was the lack of predictable, SC-cleared technical capacity to build, maintain, and scale the complex, secure environment.

Solution We provided a dedicated, SC-cleared Google Cloud Managed Support Service (MSP) team. The solution delivered flexible Platform and Application Development engineering capacity, uniquely supporting the rapid, agile needs of the IDS Hub.

Outcome Our support ensured the IDS successfully moved through three Public Beta phases and achieved stable operation. The result is transformed analytical use of government data, enabling national policy-makers and decision-makers to make better, faster decisions affecting citizens' lives.

02

Engage Personally

We create delightful digital touch points that capture attention, convert sales, and keep customers coming back.

Key Outcomes

- Delightful, intuitive, frictionless digital experiences
- Improved customer experience & intelligence
- Conversion rate optimisation
- Revenue uplift
- Increased loyalty
- Pricing & discount optimisation
- Improved paid media performance

Google

Building immersive digital products and experiences for billions of global users.

Engage Personally

Global

Tech

Customer Platforms

Google Cloud

Challenge Google wanted to create a platform that would help people learn and adopt the digital skills they needed to find a job and grow in their career, or boost their own business.

Solution Since 2017 we've designed, built and maintained three platforms; the Digital Workshop platform, the AI for Business tool, and the Grow with Google marketing site.

Outcome The platforms host 153 courses in 53 markets and 31 languages. There are 11 million + users globally and 1 million + have seen a positive impact in the EU.

03

Stay Secure

We establish and maintain the systems that protect businesses from threats, fines, and downtime.

Key Outcomes

- Improved cyber resilience
- Proactive threat detection and response
- Threat noise reduction & prioritisation
- Data governance, trust and reportability
- Regulatory compliance

Secure by Design for Mission-Critical Defence Systems

Defence

Government

Assurance

Cyber Security

Secure by Design

Challenge Dstl (part of UK MOD) needed to deploy a new system onto Royal Navy warships. This highly sensitive project required expert support to implement a Secure by Design (SbD) approach, manage high operational risk, and adhere to deep MOD security policy knowledge (JSP 440/453) in a highly classified environment.

Solution A multi-disciplinary, security-cleared team was deployed for a two-phase engagement. This included detailed threat modelling, SbD policy alignment, and developing a technical roadmap. The solution focused on the rigorous implementation and testing of robustness controls, including encryption and OS hardening.

Outcome Dstl received a robustly secured system component and a compelling Security Assurance Report, providing clear evidence for accreditation support. This successful, risk-managed delivery enabled the client to securely proceed with deploying the critical naval capability.

Public Sector Focus 02

We provide the creative approaches and specialist knowledge needed to build a cyber resilient public sector and transform services from end-to-end

Core Public Sector Challenge	Qodea's Multi-Disciplinary Focus	Supporting Capabilities
Maximising Public Value and Efficiency	Delivering accessible and efficient services that secure citizen trust and deliver better value for public money.	Digital & Application Services (UX/CX, Web/App Development), Cloud & Infrastructure Engineering (Cost Reduction, Optimisation), Data, AI & Analytics (BI, Prediction Modeling).
Strategic Resilience and Compliance	Operating securely and compliantly amid global uncertainty and changing regulations. Aligning with the Government Cyber Security Strategy 2022-2030.	Cyber Security & Governance (DSPT, NCSC CAF, Supply Chain Assurance), Cloud & Infrastructure Engineering (Security, Support), Data, AI & Analytics (AI Security/Governance).
Data-Driven Policy and Service Design	Leveraging data, ML, and AI to improve citizen outcomes and policy effectiveness through innovation at scale.	Data, AI & Analytics (Custom AI, Data Science, Data Architecture), Digital & Application Services (Service Design, Knowledge Tools).

Customer Support Agents / Chatbots: Definition

Delivering Value to the Public Sector

Our Customer Support Agents / Chatbots service helps public sector organisations design and deploy intelligent conversational AI systems that provide instant, accurate, and accessible support to citizens 24/7.

By creating chatbots and virtual agents, we dramatically reduce contact centre volumes and operational costs by deflecting routine enquiries and eliminating user wait times. Our approach combines natural language processing, user-centred design, and responsible AI principles to create systems that are accurate, explainable, and continuously improving from user interactions.

Crucially, our chatbots prioritise WCAG 2.2 AA accessibility and transparency while ensuring that complex issues are seamlessly escalated to human agents when needed, aligning with the Government Service Standard.

Service Overview

We work with your service delivery and contact centre teams to deploy sophisticated AI agents capable of handling complex enquiries and transactions. We leverage Google Cloud's Dialogflow CX and Vertex AI to deliver solutions that are efficient and aligned with user needs.

Our service includes Conversational AI Design, Natural Language Understanding (NLU), and deployment across multiple channels (web, mobile, WhatsApp, SMS). Key capabilities include seamless Live Agent Handoff, Knowledge Base Integration with policies and FAQs, and robust Analytics and Reporting on performance and user satisfaction.

The goal is to maximise self-service efficiency, ensure consistent answers, and capture valuable data that identifies future service improvement opportunities.

Service Benefits and Features

04

Service

Benefits

- 01 Provides 24/7 Availability — Citizens access support anytime without waiting for office hours or phone queues.
- 02 Reduces Contact Centre Volumes — Chatbots deflect routine enquiries enabling agents to focus on complex cases.
- 03 Improves Response Times — Instant answers to common questions eliminate wait times and improve satisfaction.
- 04 Increases Service Accessibility — Digital channel provides convenient alternative to phone for many users.
- 05 Reduces Operational Costs — Lower cost per interaction compared to phone and email support.
- 06 Ensures Consistent Answers — Standardised responses maintain quality and accuracy across all interactions.
- 07 Scales Efficiently — Handles unlimited concurrent conversations without additional staffing.
- 08 Supports Multiple Languages — Multilingual capability serves diverse communities without specialist language staff.
- 09 Captures Valuable Data — Conversation analytics identify service improvement opportunities and emerging issues.
- 10 Improves Continuously — Machine learning models improve accuracy over time from user interactions.

Service

Features

- 01 Conversational AI Design — User research-driven design of dialogue flows, intents, entities, and conversational patterns.
- 02 Natural Language Understanding (NLU) — Machine learning models understanding user intent from natural language input.
- 03 Multi-Channel Deployment — Chatbots deployed across websites, mobile apps, WhatsApp, Facebook Messenger, SMS, and voice.
- 04 Knowledge Base Integration — Connection to FAQs, policies, guidance documents, and internal knowledge systems.
- 05 Live Agent Handoff — Seamless escalation to human agents with full conversation context transfer.
- 06 Transaction Capabilities — Enabling users to complete tasks like bookings, payments, and form submissions through chat.
- 07 Multi-Language Support — Support for multiple languages serving diverse communities.
- 08 Accessibility Features — WCAG 2.2 AA compliance, screen reader support, keyboard navigation, and alternative input methods.
- 09 Analytics and Reporting — Comprehensive metrics on usage, intent recognition, completion rates, and user satisfaction.
- 10 Integration with Backend Systems — API connections to CRM, case management, booking systems, and databases.

Why They Keep Coming Back

07

Partnership Focus

01

People Centric

We embed with your team, acting as an organic extension. Your success is our sole measure of achievement.

02

In Your Language

We translate technical complexity into clear business terms, ensuring alignment and informed decision-making across all levels.

03

Laser-Focused

Every solution is custom-designed based on your unique context, needs, and strategic objectives. No 'one-size-fits-all' templates.

Drive and Excellence

01

Relentless Drive

We challenge the status quo and push boundaries, ensuring the best possible, highest-value outcomes are achieved, every time.

02

Adaptive Expertise

Our consultants maintain an unwavering commitment to continuous learning, keeping you at the forefront of emerging technologies and best practices.

03

Total Accountability

We own our decisions and commitments. The buck stops with Qodea – we deliver on our promises, and we learn from every experience.

Outcomes at pace

We fill the void between niche boutiques and bloated GSIs.

We're agile experts with the scale to deliver full-stack solutions on enterprise-grade infrastructure.

We're called in when competitors say it's impossible, or have already failed.

We ship tangible outcomes into production, fast.

Social Value

Environment

The Qodea Group is deeply committed to achieving Net Zero emissions by 2030, well ahead of the UK Government's 2050 target. Since our 2022 baseline, we have achieved a reduction equivalent to 51% of our total emissions (487.7 tCO₂e reduction). Our Carbon Reduction Plan is completed in accordance with PPN 06/21 guidance and has been formally reviewed and signed off by a Director. Our commitment is integrated into our strategic plans to deliver long-term, verifiable sustainability.

Wellbeing

As a modern business, which operates in complex environments, we know the importance of health and wellbeing. We provide an Employee assistance Programme including access to an online platform and 24hr confidential helpline. This provides counselling support and a library of wellbeing information, ensuring all staff have practical support for all aspects of physical and mental wellbeing.

Economic Inequality

Qodea is committed to addressing economic inequality through community support and skills transfer. Our employees are entitled to paid time off to engage in volunteering activities, supporting both company-endorsed initiatives and charities of their personal choosing. This flexibility ensures maximum social impact while being managed via robust internal governance to maintain service delivery standards.
