Who We Are

01

We're a global technology group
that help organisations

thrive through change

“Change will be the only constant
in the next decade”

Sir Demis Hassabis
CEO, Google DeepMind

Our Core Capabilities

Cloud & Data Transformation

Accelerating growth with strategic cloud migration, FinOps optimisation, and robust data architecture on Google Cloud and AWS.

- **Cloud Infrastructure:** Google Cloud and AWS Infrastructure & Engineering, Google Cloud Partner-Led Premium Support, and 24/7 Managed Services.
- **Strategic Migration:** Cloud Migration (Legacy apps, VMware, Data Warehouse) to Google Cloud (GCP, BigQuery, Gemini, Workspace).
- **Data & Optimisation:** Data Architecture and Infrastructure Design, Cloud FinOps & GreenOps (Cost Reduction/Sustainability), and BI Dashboard Development.

Digital & AI Engineering

Building the future through custom application development, intelligent AI agents, and exceptional user-centric design.

- **Custom AI & ML:** Custom Vertex AI Agent Development, Gemini Enterprise AI Agents, and Data Science/ML/AI for Healthcare.
- **Digital Product Design:** Service Design, User Experience (UX), Customer Portals, and Mobile/Web Application Design & Build.
- **Platform Development:** Frontend Engineering, Agentic Software, Knowledge Tools, and eCommerce/eLearning Platform Development.

Cyber Security & Resilience

Protecting your business with proactive managed services, expert strategy, and immediate incident response. We embed security across your entire digital footprint.

- **Managed Defense:** Managed Detection and Response (MDR/SOC) and Vulnerability Management as a Service (VMaaS).
- **Security Strategy:** Cyber Security Strategy and Transformation, Cyber Resilience, and Security in Supply Chain.
- **Trust & Compliance:** Data Protection Consultancy (One Trust, Inquiry Support), Cyber Security Frameworks, and Cyber Incident Response.

We deploy **frontier** technology to help our customers:

Stay
Secure

01

Work Smarter

We build the secure, modern, scalable infrastructure, apps and workflows that boost bottom lines.

Key Outcomes

- Increased profitability
- Scalability, reliability & Uptime
- Resilient, "secure by design" architecture
- Trusted, timely, self-serve insights & analytics
- Predictable, optimised cloud spend
- Collaborative, digital workspaces
- Carbon footprint reduction
- Reduced total cost of ownership

Enabling the UK's National Data Transformation via Google Cloud (Integrated Data Service)

Secure Data

UK

Government

National Data Transformation

Google Cloud

Challenge The ONS needed to build the Integrated Data Service (IDS) – a secure, national data platform on Google Cloud. The critical obstacle was the lack of predictable, SC-cleared technical capacity to build, maintain, and scale the complex, secure environment.

Solution We provided a dedicated, SC-cleared Google Cloud Managed Support Service (MSP) team. The solution delivered flexible Platform and Application Development engineering capacity, uniquely supporting the rapid, agile needs of the IDS Hub.

Outcome Our support ensured the IDS successfully moved through three Public Beta phases and achieved stable operation. The result is transformed analytical use of government data, enabling national policy-makers and decision-makers to make better, faster decisions affecting citizens' lives.

02

Engage Personally

We create delightful digital touch points that capture attention, convert sales, and keep customers coming back.

Key Outcomes

- Delightful, intuitive, frictionless digital experiences
- Improved customer experience & intelligence
- Conversion rate optimisation
- Revenue uplift
- Increased loyalty
- Pricing & discount optimisation
- Improved paid media performance

Google

Building immersive digital products and experiences for billions of global users.

Engage Personally

Global

Tech

Customer Platforms

Google Cloud

Challenge Google wanted to create a platform that would help people learn and adopt the digital skills they needed to find a job and grow in their career, or boost their own business.

Solution Since 2017 we've designed, built and maintained three platforms; the Digital Workshop platform, the AI for Business tool, and the Grow with Google marketing site.

Outcome The platforms host 153 courses in 53 markets and 31 languages. There are 11 million + users globally and 1 million + have seen a positive impact in the EU.

03

Stay Secure

We establish and maintain the systems that protect businesses from threats, fines, and downtime.

Key Outcomes

- Improved cyber resilience
- Proactive threat detection and response
- Threat noise reduction & prioritisation
- Data governance, trust and reportability
- Regulatory compliance

Secure by Design for Mission-Critical Defence Systems

Defence

Government

Assurance

Cyber Security

Secure by Design

Challenge Dstl (part of UK MOD) needed to deploy a new system onto Royal Navy warships. This highly sensitive project required expert support to implement a Secure by Design (SbD) approach, manage high operational risk, and adhere to deep MOD security policy knowledge (JSP 440/453) in a highly classified environment.

Solution A multi-disciplinary, security-cleared team was deployed for a two-phase engagement. This included detailed threat modelling, SbD policy alignment, and developing a technical roadmap. The solution focused on the rigorous implementation and testing of robustness controls, including encryption and OS hardening.

Outcome Dstl received a robustly secured system component and a compelling Security Assurance Report, providing clear evidence for accreditation support. This successful, risk-managed delivery enabled the client to securely proceed with deploying the critical naval capability.

Public Sector Focus 02

We provide the creative approaches and specialist knowledge needed to build a cyber resilient public sector and transform services from end-to-end

Core Public Sector Challenge	Qodea's Multi-Disciplinary Focus	Supporting Capabilities
Maximising Public Value and Efficiency	Delivering accessible and efficient services that secure citizen trust and deliver better value for public money.	Digital & Application Services (UX/CX, Web/App Development), Cloud & Infrastructure Engineering (Cost Reduction, Optimisation), Data, AI & Analytics (BI, Prediction Modeling).
Strategic Resilience and Compliance	Operating securely and compliantly amid global uncertainty and changing regulations. Aligning with the Government Cyber Security Strategy 2022-2030.	Cyber Security & Governance (DSPT, NCSC CAF, Supply Chain Assurance), Cloud & Infrastructure Engineering (Security, Support), Data, AI & Analytics (AI Security/Governance).
Data-Driven Policy and Service Design	Leveraging data, ML, and AI to improve citizen outcomes and policy effectiveness through innovation at scale.	Data, AI & Analytics (Custom AI, Data Science, Data Architecture), Digital & Application Services (Service Design, Knowledge Tools).

Chrome Enterprise: Secure Web Browser and Chrome Operating System Management: Definition

Delivering Value to the Public Sector

In an era of hybrid working and escalating cyber threats, public sector organisations must balance robust security with fiscal responsibility. Our Chrome Enterprise service enables authorities to modernise their digital estate while significantly reducing capital expenditure. By leveraging Chrome Enterprise including ChromeOS Flex, we help departments revitalise legacy hardware, extending device lifecycles and directly contributing to sustainability and Net Zero targets by reducing e-waste. Our solution provides advanced Zero Trust security and Data Loss Prevention (DLP) to protect sensitive citizen data, ensuring compliance with stringent regulatory standards. With rapid deployment and centralised management, we reduce the administrative burden on IT teams, allowing resources to be redirected toward frontline service delivery. This cloud-native approach ensures a resilient, secure, and cost-effective foundation for the modern public sector workforce.

Service Overview

We provide a comprehensive suite of management and security services for Google Chrome Enterprise, designed to unify and secure your organisation's web-based workflows. Our service bridges the gap between legacy infrastructure and modern cloud-native working, offering deep technical expertise in both ChromeOS and Chrome Enterprise management (Core and Premium).

We pride ourselves on our highly collaborative approach, working as an extension of your internal IT team to design, deploy, and manage a secure browser and OS ecosystem. Whether you are looking to secure a mixed-OS fleet via Chrome Enterprise Core or transform existing hardware into secure endpoints with ChromeOS Flex, our specialists ensure seamless integration with your existing identity providers like Microsoft Entra ID or Okta.

Service Benefits and Features

04

Service

Benefits

- 01 Sustainability & Net Zero: Extend hardware life and reduce e-waste by repurposing legacy devices.
- 02 Cost Optimisation: Delay expensive hardware refresh cycles and reduce total cost of ownership (TCO).
- 03 Enhanced Security Posture: Minimise attack surfaces through a read-only OS and sandboxed architecture.
- 04 Reduced IT Overhead: Centralised management simplifies administration and reduces manual configuration tasks.
- 05 Rapid Scalability: Deploy new devices instantly with zero-touch enrollment for ChromeOS.
- 06 Unified Security Visibility: Gain a single-pane-of-glass view of browser security across all operating systems.
- 07 Regulatory Compliance: Granular controls designed to meet UK data protection and residency standards.
- 08 Improved Productivity: Fast boot times and background updates minimise user downtime and friction.
- 09 Flexible Hybrid Working: Secure, encrypted access to corporate applications from any location.
- 10 Seamless Integration: Works harmoniously with your existing identity and endpoint management tools.

Service

Features

- 01 Centralised Cloud Management: Unified visibility and control for mixed-OS browser fleets from a single console.
- 02 ChromeOS Flex Deployment: Revitalise legacy PC and Mac hardware with a secure, cloud-first operating system.
- 03 Advanced Security Scoping: Implementation of deep threat scanning and comprehensive Data Loss Prevention (DLP).
- 04 Zero Trust Access: Granular access controls for web applications based on user identity and device posture.
- 05 Data Exfiltration Prevention: Prevent sensitive information transfers via the Chrome browser.
- 06 Real-time Threat Protection: Instant scanning and blocking of sophisticated malware and phishing sites.
- 07 High-Risk Activity Reporting: Granular reporting on browser events and suspicious user behaviour.
- 08 Remote Device Management: Ability to remotely wipe, disable, and configure ChromeOS devices centrally.
- 09 Extension Control: Centralised management of browser extension permissions and installations across the fleet.
- 10 Identity Federation: Seamless integration with Microsoft Entra ID, Okta, and other major identity providers.

Why They Keep Coming Back

07

Partnership Focus

01

People Centric

We embed with your team, acting as an organic extension. Your success is our sole measure of achievement.

02

In Your Language

We translate technical complexity into clear business terms, ensuring alignment and informed decision-making across all levels.

03

Laser-Focused

Every solution is custom-designed based on your unique context, needs, and strategic objectives. No 'one-size-fits-all' templates.

Drive and Excellence

01

Relentless Drive

We challenge the status quo and push boundaries, ensuring the best possible, highest-value outcomes are achieved, every time.

02

Adaptive Expertise

Our consultants maintain an unwavering commitment to continuous learning, keeping you at the forefront of emerging technologies and best practices.

03

Total Accountability

We own our decisions and commitments. The buck stops with Qodea – we deliver on our promises, and we learn from every experience.

Outcomes at pace

We fill the void between niche boutiques and bloated GSIs.

We're agile experts with the scale to deliver full-stack solutions on enterprise-grade infrastructure.

We're called in when competitors say it's impossible, or have already failed.

We ship tangible outcomes into production, fast.

Social Value

Environment

The Qodea Group is deeply committed to achieving Net Zero emissions by 2030, well ahead of the UK Government's 2050 target. Since our 2022 baseline, we have achieved a reduction equivalent to 51% of our total emissions (487.7 tCO₂e reduction). Our Carbon Reduction Plan is completed in accordance with PPN 06/21 guidance and has been formally reviewed and signed off by a Director. Our commitment is integrated into our strategic plans to deliver long-term, verifiable sustainability.

Wellbeing

As a modern business, which operates in complex environments, we know the importance of health and wellbeing. We provide an Employee assistance Programme including access to an online platform and 24hr confidential helpline. This provides counselling support and a library of wellbeing information, ensuring all staff have practical support for all aspects of physical and mental wellbeing.

Economic Inequality

Qodea is committed to addressing economic inequality through community support and skills transfer. Our employees are entitled to paid time off to engage in volunteering activities, supporting both company-endorsed initiatives and charities of their personal choosing. This flexibility ensures maximum social impact while being managed via robust internal governance to maintain service delivery standards.
