Who We Are

01

We're a global technology group
that help organisations

thrive through change

“Change will be the only constant
in the next decade”

Sir Demis Hassabis
CEO, Google DeepMind

Our Core Capabilities

Cloud & Data Transformation

Accelerating growth with strategic cloud migration, FinOps optimisation, and robust data architecture on Google Cloud and AWS.

- **Cloud Infrastructure:** Google Cloud and AWS Infrastructure & Engineering, Google Cloud Partner-Led Premium Support, and 24/7 Managed Services.
- **Strategic Migration:** Cloud Migration (Legacy apps, VMware, Data Warehouse) to Google Cloud (GCP, BigQuery, Gemini, Workspace).
- **Data & Optimisation:** Data Architecture and Infrastructure Design, Cloud FinOps & GreenOps (Cost Reduction/Sustainability), and BI Dashboard Development.

Digital & AI Engineering

Building the future through custom application development, intelligent AI agents, and exceptional user-centric design.

- **Custom AI & ML:** Custom Vertex AI Agent Development, Gemini Enterprise AI Agents, and Data Science/ML/AI for Healthcare.
- **Digital Product Design:** Service Design, User Experience (UX), Customer Portals, and Mobile/Web Application Design & Build.
- **Platform Development:** Frontend Engineering, Agentic Software, Knowledge Tools, and eCommerce/eLearning Platform Development.

Cyber Security & Resilience

Protecting your business with proactive managed services, expert strategy, and immediate incident response. We embed security across your entire digital footprint.

- **Managed Defense:** Managed Detection and Response (MDR/SOC) and Vulnerability Management as a Service (VMaaS).
- **Security Strategy:** Cyber Security Strategy and Transformation, Cyber Resilience, and Security in Supply Chain.
- **Trust & Compliance:** Data Protection Consultancy (One Trust, Inquiry Support), Cyber Security Frameworks, and Cyber Incident Response.

We deploy **frontier** technology to help our customers:

Stay
Secure

01

Work Smarter

We build the secure, modern, scalable infrastructure, apps and workflows that boost bottom lines.

Key Outcomes

- Increased profitability
- Scalability, reliability & Uptime
- Resilient, "secure by design" architecture
- Trusted, timely, self-serve insights & analytics
- Predictable, optimised cloud spend
- Collaborative, digital workspaces
- Carbon footprint reduction
- Reduced total cost of ownership

Enabling the UK's National Data Transformation via Google Cloud (Integrated Data Service)

Secure Data

UK

Government

National Data Transformation

Google Cloud

Challenge The ONS needed to build the Integrated Data Service (IDS) – a secure, national data platform on Google Cloud. The critical obstacle was the lack of predictable, SC-cleared technical capacity to build, maintain, and scale the complex, secure environment.

Solution We provided a dedicated, SC-cleared Google Cloud Managed Support Service (MSP) team. The solution delivered flexible Platform and Application Development engineering capacity, uniquely supporting the rapid, agile needs of the IDS Hub.

Outcome Our support ensured the IDS successfully moved through three Public Beta phases and achieved stable operation. The result is transformed analytical use of government data, enabling national policy-makers and decision-makers to make better, faster decisions affecting citizens' lives.

02

Engage Personally

We create delightful digital touch points that capture attention, convert sales, and keep customers coming back.

Key Outcomes

- Delightful, intuitive, frictionless digital experiences
- Improved customer experience & intelligence
- Conversion rate optimisation
- Revenue uplift
- Increased loyalty
- Pricing & discount optimisation
- Improved paid media performance

Google

Building immersive digital products and experiences for billions of global users.

Engage Personally

Global

Tech

Customer Platforms

Google Cloud

Challenge Google wanted to create a platform that would help people learn and adopt the digital skills they needed to find a job and grow in their career, or boost their own business.

Solution Since 2017 we've designed, built and maintained three platforms; the Digital Workshop platform, the AI for Business tool, and the Grow with Google marketing site.

Outcome The platforms host 153 courses in 53 markets and 31 languages. There are 11 million + users globally and 1 million + have seen a positive impact in the EU.

03

Stay Secure

We establish and maintain the systems that protect businesses from threats, fines, and downtime.

Key Outcomes

- Improved cyber resilience
- Proactive threat detection and response
- Threat noise reduction & prioritisation
- Data governance, trust and reportability
- Regulatory compliance

Government

Assurance

Cyber Security

Secure by Design

Challenge Dstl (part of UK MOD) needed to deploy a new system onto Royal Navy warships. This highly sensitive project required expert support to implement a Secure by Design (SbD) approach, manage high operational risk, and adhere to deep MOD security policy knowledge (JSP 440/453) in a highly classified environment.

Solution A multi-disciplinary, security-cleared team was deployed for a two-phase engagement. This included detailed threat modelling, SbD policy alignment, and developing a technical roadmap. The solution focused on the rigorous implementation and testing of robustness controls, including encryption and OS hardening.

Outcome Dstl received a robustly secured system component and a compelling Security Assurance Report, providing clear evidence for accreditation support. This successful, risk-managed delivery enabled the client to securely proceed with deploying the critical naval capability.

Public Sector Focus 02

We provide the creative approaches and specialist knowledge needed to build a cyber resilient public sector and transform services from end-to-end

Core Public Sector Challenge	Qodea's Multi-Disciplinary Focus	Supporting Capabilities
Maximising Public Value and Efficiency	Delivering accessible and efficient services that secure citizen trust and deliver better value for public money.	Digital & Application Services (UX/CX, Web/App Development), Cloud & Infrastructure Engineering (Cost Reduction, Optimisation), Data, AI & Analytics (BI, Prediction Modeling).
Strategic Resilience and Compliance	Operating securely and compliantly amid global uncertainty and changing regulations. Aligning with the Government Cyber Security Strategy 2022-2030.	Cyber Security & Governance (DSPT, NCSC CAF, Supply Chain Assurance), Cloud & Infrastructure Engineering (Security, Support), Data, AI & Analytics (AI Security/Governance).
Data-Driven Policy and Service Design	Leveraging data, ML, and AI to improve citizen outcomes and policy effectiveness through innovation at scale.	Data, AI & Analytics (Custom AI, Data Science, Data Architecture), Digital & Application Services (Service Design, Knowledge Tools).

Multi-Cloud Migration: Definition

Delivering Value to the Public Sector

For public sector organisations, avoiding vendor lock-in and ensuring workload portability are essential components of a robust Cloud Exit Strategy. Qodea facilitates seamless cross-cloud migrations from AWS and Azure to Google Cloud, helping departments align with the Government Cloud First policy while driving significant operational efficiency and value for money.

By migrating workloads like EC2 to Compute Engine or Redshift to BigQuery, organisations can leverage superior data analytics and AI capabilities to improve citizen outcomes. Our approach ensures that multi-cloud environments are secure by design, aligning with the Government Cyber Security Strategy to build a resilient public sector. Furthermore, our focus on GreenOps helps departments meet sustainability goals through Google's carbon-neutral operations.

Service Overview

We provide a high-level, multi-disciplinary service for organisations seeking to transition from AWS or Azure to the Google Cloud Platform (GCP). We specialise in complex migrations of infrastructure, databases, and containerised applications, leveraging Anthos to provide a unified management plane across hybrid and multi-cloud environments.

Our collaborative process begins with a rigorous, evidence-based analysis of your current technical debt and cloud maturity. We act as an organic extension of your team, providing the deep technical expertise required to navigate the complexities of cross-cloud networking, IAM mapping, and security. Whether your goal is cost reduction via FinOps optimisation or accelerating innovation through Vertex AI, Qodea delivers a tailored, risk-managed roadmap to production.

Service Benefits and Features

04

Service

Benefits

- 01 Reduced Cloud Costs: Realise savings by switching to Google Cloud's competitive and flexible pricing models.
- 02 Optimised Performance: Improve price-performance with custom machine types and committed use discounts.
- 03 Advanced AI Access: Leverage Vertex AI and Gemini for industry-leading AI/ML capabilities.
- 04 Superior Analytics: Gain the performance and scaling advantages of BigQuery over legacy warehouses.
- 05 Unified Management: Simplify complex multi-cloud environments with the Anthos control plane.
- 06 Infrastructure Security: Enhance resilience with Google's global infrastructure and BeyondCorp zero-trust models.
- 07 Sustainability Leadership: Support Net Zero goals with Google's carbon-neutral operations and detailed reporting.
- 08 Accelerated Innovation: Rapidly deploy frontier technologies and intelligent AI agents.
- 09 Strategic Leverage: Improve procurement terms by demonstrating a credible multi-cloud strategy.
- 10 Proven Migration Expertise: Benefit from a partner with extensive experience in large-scale AWS and Azure exits.

Service

Features

- 01 Compute Migration: Migration of AWS EC2, Lightsail, and Azure VMs to Google Compute Engine.
- 02 Database Transition: Moving Amazon RDS, Aurora, and Azure SQL to CloudSQL or AlloyDB.
- 03 Storage Migration: AWS S3, EBS, and Azure Blob Storage migration to Google Cloud Storage.
- 04 Data Warehouse Modernisation: Transitioning Amazon Redshift and Azure Synapse to BigQuery.
- 05 Kubernetes Migration: Moving AWS EKS and Azure AKS workloads to Google Kubernetes Engine (GKE).
- 06 Serverless Modernisation: Migrating AWS Lambda and Azure Functions to Cloud Run or Cloud Functions.
- 07 Anthos Implementation: Unified management for on-premises and multi-cloud Kubernetes clusters.
- 08 Hybrid Connectivity: Setup of cross-cloud networking, VPNs, and dedicated interconnects.
- 09 FinOps & Optimisation: Comparative cloud cost assessments and multi-cloud spend optimisation.
- 10 Portability Design: Ensuring workload portability and reducing vendor lock-in using open standards.

Why They Keep Coming Back

07

Partnership Focus

01

People Centric

We embed with your team, acting as an organic extension. Your success is our sole measure of achievement.

02

In Your Language

We translate technical complexity into clear business terms, ensuring alignment and informed decision-making across all levels.

03

Laser-Focused

Every solution is custom-designed based on your unique context, needs, and strategic objectives. No 'one-size-fits-all' templates.

Drive and Excellence

01

Relentless Drive

We challenge the status quo and push boundaries, ensuring the best possible, highest-value outcomes are achieved, every time.

02

Adaptive Expertise

Our consultants maintain an unwavering commitment to continuous learning, keeping you at the forefront of emerging technologies and best practices.

03

Total Accountability

We own our decisions and commitments. The buck stops with Qodea – we deliver on our promises, and we learn from every experience.

Outcomes at pace

We fill the void between niche boutiques and bloated GSIs.

We're agile experts with the scale to deliver full-stack solutions on enterprise-grade infrastructure.

We're called in when competitors say it's impossible, or have already failed.

We ship tangible outcomes into production, fast.

Social Value

Environment

The Qodea Group is deeply committed to achieving Net Zero emissions by 2030, well ahead of the UK Government's 2050 target. Since our 2022 baseline, we have achieved a reduction equivalent to 51% of our total emissions (487.7 tCO₂e reduction). Our Carbon Reduction Plan is completed in accordance with PPN 06/21 guidance and has been formally reviewed and signed off by a Director. Our commitment is integrated into our strategic plans to deliver long-term, verifiable sustainability.

Wellbeing

As a modern business, which operates in complex environments, we know the importance of health and wellbeing. We provide an Employee assistance Programme including access to an online platform and 24hr confidential helpline. This provides counselling support and a library of wellbeing information, ensuring all staff have practical support for all aspects of physical and mental wellbeing.

Economic Inequality

Qodea is committed to addressing economic inequality through community support and skills transfer. Our employees are entitled to paid time off to engage in volunteering activities, supporting both company-endorsed initiatives and charities of their personal choosing. This flexibility ensures maximum social impact while being managed via robust internal governance to maintain service delivery standards.
