Who We Are

01

We're a global technology group
that help organisations

thrive through change

“Change will be the only constant
in the next decade”

Sir Demis Hassabis
CEO, Google DeepMind

Our Core Capabilities

Cloud & Data Transformation

Accelerating growth with strategic cloud migration, FinOps optimisation, and robust data architecture on Google Cloud and AWS.

- **Cloud Infrastructure:** Google Cloud and AWS Infrastructure & Engineering, Google Cloud Partner-Led Premium Support, and 24/7 Managed Services.
- **Strategic Migration:** Cloud Migration (Legacy apps, VMware, Data Warehouse) to Google Cloud (GCP, BigQuery, Gemini, Workspace).
- **Data & Optimisation:** Data Architecture and Infrastructure Design, Cloud FinOps & GreenOps (Cost Reduction/Sustainability), and BI Dashboard Development.

Digital & AI Engineering

Building the future through custom application development, intelligent AI agents, and exceptional user-centric design.

- **Custom AI & ML:** Custom Vertex AI Agent Development, Gemini Enterprise AI Agents, and Data Science/ML/AI for Healthcare.
- **Digital Product Design:** Service Design, User Experience (UX), Customer Portals, and Mobile/Web Application Design & Build.
- **Platform Development:** Frontend Engineering, Agentic Software, Knowledge Tools, and eCommerce/eLearning Platform Development.

Cyber Security & Resilience

Protecting your business with proactive managed services, expert strategy, and immediate incident response. We embed security across your entire digital footprint.

- **Managed Defense:** Managed Detection and Response (MDR/SOC) and Vulnerability Management as a Service (VMaaS).
- **Security Strategy:** Cyber Security Strategy and Transformation, Cyber Resilience, and Security in Supply Chain.
- **Trust & Compliance:** Data Protection Consultancy (One Trust, Inquiry Support), Cyber Security Frameworks, and Cyber Incident Response.

We deploy **frontier** technology to help our customers:

01

Work
Smarter

02

Engage
Personally

03

Stay
Secure

01

Work Smarter

We build the secure, modern, scalable infrastructure, apps and workflows that boost bottom lines.

Key Outcomes

- Increased profitability
- Scalability, reliability & Uptime
- Resilient, "secure by design" architecture
- Trusted, timely, self-serve insights & analytics
- Predictable, optimised cloud spend
- Collaborative, digital workspaces
- Carbon footprint reduction
- Reduced total cost of ownership

Enabling the UK's National Data Transformation via Google Cloud (Integrated Data Service)

Secure Data

UK

Government

National Data Transformation

Google Cloud

Challenge The ONS needed to build the Integrated Data Service (IDS) – a secure, national data platform on Google Cloud. The critical obstacle was the lack of predictable, SC-cleared technical capacity to build, maintain, and scale the complex, secure environment.

Solution We provided a dedicated, SC-cleared Google Cloud Managed Support Service (MSP) team. The solution delivered flexible Platform and Application Development engineering capacity, uniquely supporting the rapid, agile needs of the IDS Hub.

Outcome Our support ensured the IDS successfully moved through three Public Beta phases and achieved stable operation. The result is transformed analytical use of government data, enabling national policy-makers and decision-makers to make better, faster decisions affecting citizens' lives.

02

Engage Personally

We create delightful digital touch points that capture attention, convert sales, and keep customers coming back.

Key Outcomes

- Delightful, intuitive, frictionless digital experiences
- Improved customer experience & intelligence
- Conversion rate optimisation
- Revenue uplift
- Increased loyalty
- Pricing & discount optimisation
- Improved paid media performance

Google

Building immersive digital products and experiences for billions of global users.

Engage Personally

Global

Tech

Customer Platforms

Google Cloud

Challenge Google wanted to create a platform that would help people learn and adopt the digital skills they needed to find a job and grow in their career, or boost their own business.

Solution Since 2017 we've designed, built and maintained three platforms; the Digital Workshop platform, the AI for Business tool, and the Grow with Google marketing site.

Outcome The platforms host 153 courses in 53 markets and 31 languages. There are 11 million + users globally and 1 million + have seen a positive impact in the EU.

03

Stay Secure

We establish and maintain the systems that protect businesses from threats, fines, and downtime.

Key Outcomes

- Improved cyber resilience
- Proactive threat detection and response
- Threat noise reduction & prioritisation
- Data governance, trust and reportability
- Regulatory compliance

Secure by Design for Mission-Critical Defence Systems

Defence

Government

Assurance

Cyber Security

Secure by Design

Challenge Dstl (part of UK MOD) needed to deploy a new system onto Royal Navy warships. This highly sensitive project required expert support to implement a Secure by Design (SbD) approach, manage high operational risk, and adhere to deep MOD security policy knowledge (JSP 440/453) in a highly classified environment.

Solution A multi-disciplinary, security-cleared team was deployed for a two-phase engagement. This included detailed threat modelling, SbD policy alignment, and developing a technical roadmap. The solution focused on the rigorous implementation and testing of robustness controls, including encryption and OS hardening.

Outcome Dstl received a robustly secured system component and a compelling Security Assurance Report, providing clear evidence for accreditation support. This successful, risk-managed delivery enabled the client to securely proceed with deploying the critical naval capability.

Public Sector Focus 02

We provide the creative approaches and specialist knowledge needed to build a cyber resilient public sector and transform services from end-to-end

Core Public Sector Challenge	Qodea's Multi-Disciplinary Focus	Supporting Capabilities
Maximising Public Value and Efficiency	Delivering accessible and efficient services that secure citizen trust and deliver better value for public money.	Digital & Application Services (UX/CX, Web/App Development), Cloud & Infrastructure Engineering (Cost Reduction, Optimisation), Data, AI & Analytics (BI, Prediction Modeling).
Strategic Resilience and Compliance	Operating securely and compliantly amid global uncertainty and changing regulations. Aligning with the Government Cyber Security Strategy 2022-2030.	Cyber Security & Governance (DSPT, NCSC CAF, Supply Chain Assurance), Cloud & Infrastructure Engineering (Security, Support), Data, AI & Analytics (AI Security/Governance).
Data-Driven Policy and Service Design	Leveraging data, ML, and AI to improve citizen outcomes and policy effectiveness through innovation at scale.	Data, AI & Analytics (Custom AI, Data Science, Data Architecture), Digital & Application Services (Service Design, Knowledge Tools).

Managed Wiz Cloud Security (CNAPP) & Compliance Service: Definition

Delivering Value to the Public Sector

UK government organisations operate in a high-stakes digital environment where protecting sensitive citizen data and essential services is a strategic imperative. Our DV-cleared managed service provides the specialised technical capacity required to secure critical systems classified as OFFICIAL and above. By aligning with the Government Cyber Security Strategy 2022-2030, we help departments adopt the NCSC's Cyber Assessment Framework (CAF) to systematically uplift cyber resilience.

Our service supports GovAssure, providing the visibility and structured roadmaps needed to manage cyber risks effectively across complex government cloud estates. With UK-based, high-level security-vetted analysts, we ensure that even the most sensitive national security data is handled with the highest level of assurance.

Service Overview

We provide a fully managed Cloud-Native Application Protection Platform (CNAPP) service, leveraging the industry-leading Wiz platform.

Our service offers a unified view of security risks across multi-cloud environments, eliminating blind spots through agentless scanning technology that connects via cloud APIs in minutes.

Our team of DV-cleared experts manages the day-to-day security operations, using the Wiz Security Graph to visualise complex interconnections and identify "toxic combinations" of risks that lead to real attack paths. This proactive approach allows us to shift from a high-volume alert environment to a prioritized, actionable plan for remediation, ensuring your engineering teams focus only on the risks that truly matter.

Service Benefits and Features

04

Service

Benefits

- 01 Complete Estate Visibility: Eliminates blind spots by providing 100% coverage across cloud resources, including ephemeral workloads.
- 02 Reduced Remediation Time: Accelerates risk mitigation by prioritising exploitable vulnerabilities with high blast radius.
- 03 Continuous Compliance Assurance: Simplifies audits with instant, evidence-based reporting against national security baselines.
- 04 Expert Platform Management: Maximises the value of your Wiz investment through professional operationalisation and tuning.
- 05 Internal Resource Relief: Alleviates pressure on internal teams by handling complex day-to-day security operations.
- 06 Secure Digital Innovation: Enables rapid adoption of new cloud services by embedding security into the development lifecycle.
- 07 High-Assurance Staffing: Provides peace of mind with DV-cleared personnel managed via robust UK-based security governance.
- 08 Zero Performance Impact: Agentless technology monitors configurations and workloads without affecting application performance.
- 09 Effective Noise Reduction: Consolidates alerts into meaningful "toxic combinations," preventing analyst fatigue and focusing effort.
- 10 Standardised Security Posture: Attains and sustains a recognised baseline of security resilience across all critical systems.

Service

Features

- 01 Managed Wiz Deployment: Complete platform configuration and continuous optimisation of the Wiz CNAPP environment.
- 02 24/7 DV-Cleared Monitoring: Round-the-clock security monitoring by UK-based, Developed Vetting (DV) cleared SOC analysts.
- 03 Multi-Cloud Threat Detection: Real-time detection across AWS, Azure, GCP, and Kubernetes using native cloud integrations.
- 04 Agentless Workload Protection: Continuous vulnerability scanning of VMs, containers, and serverless functions without local agents.
- 05 GovAssure & NCSC Compliance: Automated assessment against UK government security standards and CAF profiles.
- 06 Rapid Incident Response: Expert handling of security incidents with committed SLAs for critical threat alerts.
- 07 Risk Prioritisation Guidance: Contextual guidance for engineering teams to remediate the most critical "toxic" risk combinations.
- 08 Executive Security Dashboarding: Custom reporting tailored for stakeholders, providing visibility into risk posture and compliance.
- 09 Government Tool Integration: Seamless integration with existing government SIEM (Security Information and Event Management) and workflow tools.
- 10 Proactive Threat Hunting: Advanced hunting using Wiz Security Graph to identify suspicious activity and slow-moving attacks.

Why They Keep Coming Back

07

Partnership Focus

01

People Centric

We embed with your team, acting as an organic extension. Your success is our sole measure of achievement.

02

In Your Language

We translate technical complexity into clear business terms, ensuring alignment and informed decision-making across all levels.

03

Laser-Focused

Every solution is custom-designed based on your unique context, needs, and strategic objectives. No 'one-size-fits-all' templates.

Drive and Excellence

01

Relentless Drive

We challenge the status quo and push boundaries, ensuring the best possible, highest-value outcomes are achieved, every time.

02

Adaptive Expertise

Our consultants maintain an unwavering commitment to continuous learning, keeping you at the forefront of emerging technologies and best practices.

03

Total Accountability

We own our decisions and commitments. The buck stops with Qodea – we deliver on our promises, and we learn from every experience.

Outcomes at pace

We fill the void between niche boutiques and bloated GSIs.

We're agile experts with the scale to deliver full-stack solutions on enterprise-grade infrastructure.

We're called in when competitors say it's impossible, or have already failed.

We ship tangible outcomes into production, fast.

Social Value

Environment

The Qodea Group is deeply committed to achieving Net Zero emissions by 2030, well ahead of the UK Government's 2050 target. Since our 2022 baseline, we have achieved a reduction equivalent to 51% of our total emissions (487.7 tCO₂e reduction). Our Carbon Reduction Plan is completed in accordance with PPN 06/21 guidance and has been formally reviewed and signed off by a Director. Our commitment is integrated into our strategic plans to deliver long-term, verifiable sustainability.

Wellbeing

As a modern business, which operates in complex environments, we know the importance of health and wellbeing. We provide an Employee assistance Programme including access to an online platform and 24hr confidential helpline. This provides counselling support and a library of wellbeing information, ensuring all staff have practical support for all aspects of physical and mental wellbeing.

Economic Inequality

Qodea is committed to addressing economic inequality through community support and skills transfer. Our employees are entitled to paid time off to engage in volunteering activities, supporting both company-endorsed initiatives and charities of their personal choosing. This flexibility ensures maximum social impact while being managed via robust internal governance to maintain service delivery standards.
