Who We Are

01

We're a global technology group
that help organisations

thrive through change

“Change will be the only constant
in the next decade”

Sir Demis Hassabis
CEO, Google DeepMind

Our Core Capabilities

Cloud & Data Transformation

Accelerating growth with strategic cloud migration, FinOps optimisation, and robust data architecture on Google Cloud and AWS.

- **Cloud Infrastructure:** Google Cloud and AWS Infrastructure & Engineering, Google Cloud Partner-Led Premium Support, and 24/7 Managed Services.
- **Strategic Migration:** Cloud Migration (Legacy apps, VMware, Data Warehouse) to Google Cloud (GCP, BigQuery, Gemini, Workspace).
- **Data & Optimisation:** Data Architecture and Infrastructure Design, Cloud FinOps & GreenOps (Cost Reduction/Sustainability), and BI Dashboard Development.

Digital & AI Engineering

Building the future through custom application development, intelligent AI agents, and exceptional user-centric design.

- **Custom AI & ML:** Custom Vertex AI Agent Development, Gemini Enterprise AI Agents, and Data Science/ML/AI for Healthcare.
- **Digital Product Design:** Service Design, User Experience (UX), Customer Portals, and Mobile/Web Application Design & Build.
- **Platform Development:** Frontend Engineering, Agentic Software, Knowledge Tools, and eCommerce/eLearning Platform Development.

Cyber Security & Resilience

Protecting your business with proactive managed services, expert strategy, and immediate incident response. We embed security across your entire digital footprint.

- **Managed Defense:** Managed Detection and Response (MDR/SOC) and Vulnerability Management as a Service (VMaaS).
- **Security Strategy:** Cyber Security Strategy and Transformation, Cyber Resilience, and Security in Supply Chain.
- **Trust & Compliance:** Data Protection Consultancy (One Trust, Inquiry Support), Cyber Security Frameworks, and Cyber Incident Response.

We deploy **frontier** technology to help our customers:

Stay
Secure

01

Work Smarter

We build the secure, modern, scalable infrastructure, apps and workflows that boost bottom lines.

Key Outcomes

- Increased profitability
- Scalability, reliability & Uptime
- Resilient, "secure by design" architecture
- Trusted, timely, self-serve insights & analytics
- Predictable, optimised cloud spend
- Collaborative, digital workspaces
- Carbon footprint reduction
- Reduced total cost of ownership

Enabling the UK's National Data Transformation via Google Cloud (Integrated Data Service)

Secure Data

UK

Government

National Data Transformation

Google Cloud

Challenge The ONS needed to build the Integrated Data Service (IDS) – a secure, national data platform on Google Cloud. The critical obstacle was the lack of predictable, SC-cleared technical capacity to build, maintain, and scale the complex, secure environment.

Solution We provided a dedicated, SC-cleared Google Cloud Managed Support Service (MSP) team. The solution delivered flexible Platform and Application Development engineering capacity, uniquely supporting the rapid, agile needs of the IDS Hub.

Outcome Our support ensured the IDS successfully moved through three Public Beta phases and achieved stable operation. The result is transformed analytical use of government data, enabling national policy-makers and decision-makers to make better, faster decisions affecting citizens' lives.

02

Engage Personally

We create delightful digital touch points that capture attention, convert sales, and keep customers coming back.

Key Outcomes

- Delightful, intuitive, frictionless digital experiences
- Improved customer experience & intelligence
- Conversion rate optimisation
- Revenue uplift
- Increased loyalty
- Pricing & discount optimisation
- Improved paid media performance

Google

Building immersive digital products and experiences for billions of global users.

Engage Personally

Global

Tech

Customer Platforms

Google Cloud

Challenge Google wanted to create a platform that would help people learn and adopt the digital skills they needed to find a job and grow in their career, or boost their own business.

Solution Since 2017 we've designed, built and maintained three platforms; the Digital Workshop platform, the AI for Business tool, and the Grow with Google marketing site.

Outcome The platforms host 153 courses in 53 markets and 31 languages. There are 11 million + users globally and 1 million + have seen a positive impact in the EU.

03

Stay Secure

We establish and maintain the systems that protect businesses from threats, fines, and downtime.

Key Outcomes

- Improved cyber resilience
- Proactive threat detection and response
- Threat noise reduction & prioritisation
- Data governance, trust and reportability
- Regulatory compliance

Assurance

Cyber Security

Secure by Design

Challenge Dstl (part of UK MOD) needed to deploy a new system onto Royal Navy warships. This highly sensitive project required expert support to implement a Secure by Design (SbD) approach, manage high operational risk, and adhere to deep MOD security policy knowledge (JSP 440/453) in a highly classified environment.

Solution A multi-disciplinary, security-cleared team was deployed for a two-phase engagement. This included detailed threat modelling, SbD policy alignment, and developing a technical roadmap. The solution focused on the rigorous implementation and testing of robustness controls, including encryption and OS hardening.

Outcome Dstl received a robustly secured system component and a compelling Security Assurance Report, providing clear evidence for accreditation support. This successful, risk-managed delivery enabled the client to securely proceed with deploying the critical naval capability.

Public Sector Focus 02

We provide the creative approaches and specialist knowledge needed to build a cyber resilient public sector and transform services from end-to-end

Core Public Sector Challenge	Qodea's Multi-Disciplinary Focus	Supporting Capabilities
Maximising Public Value and Efficiency	Delivering accessible and efficient services that secure citizen trust and deliver better value for public money.	Digital & Application Services (UX/CX, Web/App Development), Cloud & Infrastructure Engineering (Cost Reduction, Optimisation), Data, AI & Analytics (BI, Prediction Modeling).
Strategic Resilience and Compliance	Operating securely and compliantly amid global uncertainty and changing regulations. Aligning with the Government Cyber Security Strategy 2022-2030.	Cyber Security & Governance (DSPT, NCSC CAF, Supply Chain Assurance), Cloud & Infrastructure Engineering (Security, Support), Data, AI & Analytics (AI Security/Governance).
Data-Driven Policy and Service Design	Leveraging data, ML, and AI to improve citizen outcomes and policy effectiveness through innovation at scale.	Data, AI & Analytics (Custom AI, Data Science, Data Architecture), Digital & Application Services (Service Design, Knowledge Tools).

Service Definition

Integration as a Service: Definition

Delivering Value to the Public Sector

Our Integration as a Service (IaaS) provides the public sector with a complete, end-to-end managed integration platform within a secure AWS environment.

This service enables customers to consume integrations as a managed service with predictable outcomes, removing the need for operating integration platforms, managing infrastructure, licences, or specialist skills internally.

It significantly reduces operational risk by delegating complex tasks like monitoring, 3rd line incident handling, and technical upgrades to specialists. The IaaS model offers a scalable support model aligned with ITIL processes and AWS best practices, enhancing governance and providing strategic insight via expert advisory support and proactive external monitoring.

Service Overview

Integration as a Service delivers a fully managed integration platform designed for seamless operation and maintenance of integration services and process services. This includes the Fully Managed AWS Integration Environment covering hosting, operation, and maintenance.

The service encompasses a comprehensive support lifecycle: Monitoring & Event Management for automated alerting, Incident Management (3rd line) for complex resolution, and Problem Management to identify recurring issues and propose long-term fixes. A dedicated Service Delivery Manager oversees planning, governance, and reporting, complemented by Technical Upgrades and Proactive Support to ensure platform security and continuity.

Customers also gain access to experts for strategic guidance via Advisory Management.

Service Benefits and Features

04

Service

Benefits

- 01 Enables customers to consume integrations as a managed service with predictable outcomes.
- 02 Reduces operational risk by delegating monitoring, incident handling, and upgrades to specialists.
- 03 Removes the need for operating integration platforms internally.
- 04 Improves reliability and performance through proactive event management and problem analysis.
- 05 Enhances governance with structured reporting, change handling, and defined responsibilities.
- 06 Provides scalable support model aligned with ITIL processes and AWS best practices.
- 07 Offers strategic insight via advisory management and external technology monitoring.
- 08 Eliminates the need to acquire, manage, or support infrastructure, licenses, or products (Implicitly included with managed service).
- 09 Ensures platform quality and security through supplier-driven technical upgrades (Implicitly from Technical Upgrades).
- 10 Access to a dedicated Service Delivery Manager for clear planning and coordination (Implicitly from Service Delivery Management).

Service

Features

- 01 Service Delivery Management – Dedicated Service Delivery Manager overseeing planning, prioritisation, reporting, problem management, and coordination.
- 02 Monitoring & Event Management – Automated monitoring of integrations with alerting, deviation detection, escalation, and standard reporting.
- 03 Technical Upgrades – Supplier-driven upgrades ensuring platform quality, security, and continuity.
- 04 Incident Management (3rd line) – Full lifecycle management of complex integration incidents, including prioritisation, root cause investigation, and resolution.
- 05 Problem Management – Identification of recurring issues, analysis, long-term resolution proposals, and reporting.
- 06 Change Management – Structured handling of all service-related change requests with impact analysis, quality assurance, implementation, and governance.
- 07 Advisory Management – Access to integration experts for tactical and strategic guidance on integration patterns, AWS architecture, and related infrastructure.
- 08 Proactive Support – Notification of external incidents or risks identified that may affect the customer's integrations.
- 09 Fully Managed AWS Integration Environment – Hosting, operation, and maintenance of integration services.
- 10 Service Reporting & Governance – Regular status meetings, performance reporting, incident overview, and continuous collaboration processes.

Why They Keep Coming Back

07

Partnership Focus

01

People Centric

We embed with your team, acting as an organic extension. Your success is our sole measure of achievement.

02

In Your Language

We translate technical complexity into clear business terms, ensuring alignment and informed decision-making across all levels.

03

Laser-Focused

Every solution is custom-designed based on your unique context, needs, and strategic objectives. No 'one-size-fits-all' templates.

Drive and Excellence

01

Relentless Drive

We challenge the status quo and push boundaries, ensuring the best possible, highest-value outcomes are achieved, every time.

02

Adaptive Expertise

Our consultants maintain an unwavering commitment to continuous learning, keeping you at the forefront of emerging technologies and best practices.

03

Total Accountability

We own our decisions and commitments. The buck stops with Qodea – we deliver on our promises, and we learn from every experience.

Outcomes at pace

We fill the void between niche boutiques and bloated GSIs.

We're agile experts with the scale to deliver full-stack solutions on enterprise-grade infrastructure.

We're called in when competitors say it's impossible, or have already failed.

We ship tangible outcomes into production, fast.

Social Value

Environment

The Qodea Group is deeply committed to achieving Net Zero emissions by 2030, well ahead of the UK Government's 2050 target. Since our 2022 baseline, we have achieved a reduction equivalent to 51% of our total emissions (487.7 tCO₂e reduction). Our Carbon Reduction Plan is completed in accordance with PPN 06/21 guidance and has been formally reviewed and signed off by a Director. Our commitment is integrated into our strategic plans to deliver long-term, verifiable sustainability.

Wellbeing

As a modern business, which operates in complex environments, we know the importance of health and wellbeing. We provide an Employee assistance Programme including access to an online platform and 24hr confidential helpline. This provides counselling support and a library of wellbeing information, ensuring all staff have practical support for all aspects of physical and mental wellbeing.

Economic Inequality

Qodea is committed to addressing economic inequality through community support and skills transfer. Our employees are entitled to paid time off to engage in volunteering activities, supporting both company-endorsed initiatives and charities of their personal choosing. This flexibility ensures maximum social impact while being managed via robust internal governance to maintain service delivery standards.
