

Agile Collective G-Cloud 15 pricing

hello@agile.coop

As a worker-owned cooperative, our pricing model is designed to deliver social value through fairness, transparency, and responsible use of public funds. We do not charge fixed day rates without assurance that time is spent delivering work for your project. Instead, we charge only for the actual time worked, billed to the minute. We believe this is a fairer way of doing business that respects both your budget and time.

G-Cloud 15 pricing

Activity	Hourly rate
Designer/Developer/Project Manager	£135
Consultant	£150

Notes on rates

- All rates exclude VAT.
- We regularly report on time and budget, and only charge for the time we use. If we need fewer hours than scheduled, we'll only charge for the billable hours used.
- We usually aim to pass on any reasonable standard-class travel (and, if necessary, accommodation) expenses for trips between cities.
- Our standard rate for both project and support work is currently £135 plus VAT per hour.
