Hosting prices

dxw will host your service in your own dedicated account on UK-based AWS infrastructure.

When hosted in your own account, we charge based on the number of instances you need (we recommend 3 mediums as a default)

For all hosting arrangements:

- we charge based on the size of database you need
- we charge for a load balancer (if you have multiple applications this can be shared)
- we recommend a staging environment for each application
- we include free file storage up to 10GB and data transfer up to 100GB per month

Other services are available tailored to your application's needs.

	Unit	Cost per unit	Charge threshold
Account provisioning	Monthly	£365.00	-
Load balancer per clustered application	Monthly	£40.00	-
File storage	GB	£0.10	10GB
Data transfer	GB	£0.12	100GB

Database*	Unit	Cost per unit
Small	Hour	£0.085
Medium	Hour	£0.17
Large	Hour	£0.34
XL	Hour	£0.68
2XL	Hour	£1.36
4XL	Hour	£2.72

Instance	Unit	Cost per unit
Small	Hour	£0.05
Medium	Hour	£0.10
Large	Hour	£0.20
XL	Hour	£0.40
2XL	Hour	£0.80
4XL	Hour	£1.60

* Pricing for auto-scaling database available on request

24/7 coverage	Monthly	£1140	£570
Support work	Hourly	£155	£155

The small print

The small print

Fees are calculated in arrears each month. They are based on your hosting, the number of support hours used and use of any additional services.

Support usage is reviewed on a quarterly basis and limits on it can be increased or decreased in line with your requirements.

Storage and transfer within the charge threshold is included. Beyond the threshold, resources are charged per unit used per month.

Custom hosting services are also available including Multi-Availability Zone provision, failover support, custom backup arrangements, auto-scaling and more.

If you require services that are not part of your managed support, we can provide them on day rates. Please see our Digital Marketplace rate card for more information.

Please contact us for more information. We will be happy to provide pricing specific to your service via the clarification process.

Thanks!
