

WordPress Implementation

G-Cloud 15 Service Description

sales@dxw.com | 0345 257 7520

dxw create public services that improve lives

We're a leading employee-owned digital agency that works with the public and third sectors. Since 2008 we've worked in partnership to deliver positive, sustainable change.

We are absolutely committed to delivering brilliant services and transforming organisations that work for the public good.

We provide multidisciplinary teams with the specific expertise and resources you need. We often work in integrated dxw / client teams, using our expertise to complement yours. This helps to transfer knowledge and develop your own internal capability.

dxw are experts in designing, developing and hosting WordPress websites.

Our multidisciplinary **GovPress** team work solely with public and third sector clients to research, design, build and operate secure, accessible websites, firmly centred around user's needs.

We are WordPress experts, and have been working with it for over 14 years. Our team are long-standing, active, and well-respected members of the WordPress community. We openly publish our third-party plugin security reviews and any vulnerabilities we find.

**We can work with you
at all stages of the
development lifecycle
to bring your site to life.**

We offer:

- specialist website design and development expertise
- a full in-house multidisciplinary team consisting of strategy, delivery, design, development, research, content & operations
- an agile, iterative development approach, following the Government Service Manual
- development to meet the Service Standard, including the WCAG 2.2AA accessibility standard

Thanks!
