Computacenter - Platform Engineering
Enablement

SERVICE DESCRIPTION – PLATFORM ENGINEERING ENABLEMENT

OVERVIEW

Service Description

The Platform Engineering Enablement Accelerator is a consultant-led 90-day high-impact engagement to help platform teams establish Product Thinking, Platform-as-Product and agile Ways-of-Working. The engagement maps developer journeys, identifies blockers, builds a platform enablement strategy and delivers against an actionable roadmap to streamline and accelerate software delivery.

Key Features for our Customers

- ❖ 90-day structured outcome-driven accelerator with clear phases and milestones
- ❖ Platform vision – establishes the platforms purpose and value proposition
- ❖ Introduces customer-centric methods: personas, outcomes, prioritisation and feedback loops
- ❖ End-to-end developer journey and persona mapping
- ❖ Friction and blocker identification and quantification
- ❖ Defines platform capabilities, operating model, adoption and success metrics
- ❖ Actionable 6–12-month prioritised backlog and roadmap
- ❖ Platform-ready agile patterns, intake processes, backlogs, SLAs/SLOs
- ❖ Service catalogue definition – identifies core platform 'products'
- ❖ Execution support and early delivery of quick wins

Key Benefit for our Customers

- ❖ Faster software delivery by reducing friction and manual steps
- ❖ Higher developer productivity, more time building, less time fighting complexity
- ❖ Improved developer experience, with clear self-service golden paths
- ❖ Consistent deployment paths and guardrails reducing delivery risks
- ❖ Better alignment between platform and business priorities
- ❖ Guardrails-based compliance and security reduces bottlenecks
- ❖ More predictable platform delivery
- ❖ Improved platform adoption and ROI
- ❖ Lower cost of delivery with standardisation, automation and self-service
- ❖ Repeatable blueprint for scaling

SERVICE DESCRIPTION – SUPPORTING INFORMATION

Cloud & Applications services portfolio

Our Developer Platform Adoption service forms part of Computacenter's Developer Velocity solutions.

These solutions help customers to scale software delivery by improving developer experience, adopting platform engineering and leverage AI assisted development.

SERVICE DESCRIPTION – SUPPORTING INFORMATION

Cloud & Applications services portfolio

Integral to our Adoption services, it forms part of our wider service portfolio aimed at support our customers at every stage of their technology adoption.

When leveraged with our Values Stream Mapping, Technology Selection, Platform Readiness and Proof of Value services, customers are able to take critical first steps in Developer Platform adoption with confidence and clarity.

Please ensure you reference the GCloud 15 Service ID number in all communication

Invoicing Process

Customers are invoiced monthly with 30 days net payment terms.

Computacenter Social Value and legal statements

Social Value Statement

Computacenter has a strong, long-standing commitment to delivering social value to the communities in which we operate. This is underpinned by our Sustainability Strategy, which focuses on the following 3 pillars:

- **People:** Supporting people and communities around the world
- **Planet:** Ensuring sustainable operations
- **Solutions:** Delivering sustainability through technology

While this strategy is in place across our global organisation, it aligns well to the 5 themes of the UK Government's Social Value Model and underpins our tailored approach to delivering social value through our government contracts in the UK. As a UK headquartered company and strategic supplier to UK government, Computacenter is proud of our strong track record in delivering social value within the UK specifically, but our global framework and reach provides us with opportunities to deliver social value on a much greater scale.

Our success in delivering social value through our global sustainability strategy is evidenced through the key recent achievements outlined below:

- TIME magazine has named Computacenter as one of the **World's Best Companies** where we have been recognised globally in three areas: employee satisfaction, revenue growth and sustainability (ESG). This highlights our commitment to our people, our planet and to delivering sustainable growth.
- The support we have provided to the Beyond Food Foundation through our joint '**Fresh Lives**' programme has included technology donations and funding to set up the programme as well as Computacenter employees volunteering their time to run CV and employability workshops. This is already having a demonstrable effect in reducing recidivism, with **60% of prison leavers** who take part in the programme gaining employment, with **86%** of those people still employed a year later.
- Our long-term carbon emissions reduction and net zero targets have been approved by the Science-Based Targets Initiative (SBTi) which, coupled with our A- rating from CDP for our latest Climate Change Survey disclosure demonstrates our strong commitment to fighting climate change and reaching **net zero emissions by 2050**.
- Our commitment to fighting climate change was further highlighted through our recognition as a Climate Leader in the Financial Times' Europe's Climate Leaders 2024 report, where we ranked **16th overall, 3rd of all UK-based organisations** and **1st in the UK technology sector**.
- Ecovadis have recognised our overall ESG performance by awarding us a silver rating at a global level, placing us within the **top 8%** of all organisations assessed
- We have been recognised as a 'Top Employer' by the Top Employers Institute for the last 2 years as being one of the UK's best places to work, as well as further recognition through our [Great Place To Work certification](#).
- Our people-led **Ethnic Diversity Employee Impact Group** has been nominated in the category of 'Network Group' in the 2024 Ethnicity Awards from Investing in Ethnicity, demonstrating our strong commitment to championing ethnic diversity within our organisation and the wider industry.
- Computacenter were highly commended in the CRN Sustainability in Tech Awards 2024 in the **Circular Economy Company of the Year** category.
- In 2025, Rate my Apprenticeship and the Department for Education recognised Computacenter as a Top 100 employer for apprenticeships.
