COMPUTACENTER SOCIAL VALUE AND LEGAL STATEMENTS

Social Value Statement

Computacenter has a strong, long-standing commitment to delivering social value to the communities in which we operate. This is underpinned by our Sustainability Strategy, which focuses on the following 3 pillars:

- **People:** Supporting people and communities around the world
- **Planet:** Ensuring sustainable operations
- **Solutions:** Delivering sustainability through technology

While this strategy is in place across our global organisation, it aligns well to the 5 themes of the UK Government's Social Value Model and underpins our tailored approach to delivering social value through our government contracts in the UK. As a UK headquartered company and strategic supplier to UK government, Computacenter is proud of our strong track record in delivering social value within the UK specifically, but our global framework and reach provides us with opportunities to deliver social value on a much greater scale.

Our success in delivering social value through our global sustainability strategy is evidenced through the key recent achievements outlined below:

- TIME magazine has named Computacenter as one of the **World's Best Companies** where we have been recognised globally in three areas: employee satisfaction, revenue growth and sustainability (ESG). This highlights our commitment to our people, our planet and to delivering sustainable growth.
- The support we have provided to the Beyond Food Foundation through our joint **'Fresh Lives' programme** has included technology donations and funding to set up the programme as well as Computacenter employees volunteering their time to run CV and employability workshops. This is already having a demonstrable effect in reducing recidivism, with **60% of prison leavers** who take part in the programme gaining employment, with **86%** of those people still employed a year later.
- Our long-term carbon emissions reduction and net zero targets have been approved by the Science-Based Targets Initiative (SBTi) which, coupled with our A- rating from CDP for our latest Climate Change Survey disclosure demonstrates our strong commitment to fighting climate change and reaching **net zero emissions by 2050**.
- Our commitment to fighting climate change was further highlighted through our recognition as a Climate Leader in the Financial Times' Europe's Climate Leaders 2024 report, where we ranked **16th overall, 3rd of all UK-based organisations** and **1st in the UK technology sector**.
- Ecovadis have recognised our overall ESG performance by awarding us a silver rating at a global level, placing us within the **top 8%** of all organisations assessed
- We have been recognised as a 'Top Employer' by the Top Employers Institute for the last 2 years as being one of the UK's best places to work, as well as further recognition through our Great Place To Work certification.
- Our people-led **Ethnic Diversity Employee Impact Group** has been nominated in the category of 'Network Group' in the 2024 Ethnicity Awards from Investing in Ethnicity, demonstrating our strong commitment to championing ethnic diversity within our organisation and the wider industry.
- Computacenter were highly commended in the CRN Sustainability in Tech Awards 2024 in the **Circular Economy Company of the Year** category.
- In 2025, Rate my Apprenticeship and the Department for Education recognised Computacenter as a **Top 100 employer** for apprenticeships.

SERVICE DESCRIPTION – DYNATRACE MIGRATION SERVICES

OVERVIEW

Service Description

A phased migration service to safely transition from legacy observability platforms to Dynatrace, ensuring parity on critical use cases before cutover. The approach prioritises operational stability, clear rollback paths, and controlled decommissioning to minimise risk while realising cost and complexity reductions.

Key Features for our Customers

- *Legacy tool discovery and assessment*
- *Parity mapping and wave planning*
- *Config-as-code migration patterns*
- *Pilot and dual-run execution*
- *Cutover and rollback runbooks*
- *Alert and dashboard parity validation*
- *SLO and noise optimisation*
- *Integration switch coordination*
- *Operational readiness validation*
- *Legacy decommission planning*

Key Benefit for our Customers

- *Reduced tooling and license costs*
- *Lower operational complexity*
- *Safe and controlled cutovers*
- *No loss of critical visibility*
- *Improved alert fidelity post-migration*
- *Predictable migration timelines*
- *Reduced migration-related incidents*
- *Faster time to modern observability*
- *Clear ownership during transitions*
- *Realised cost take-out*

SERVICE DESCRIPTION – SUPPORTING INFORMATION

Cloud & Applications services portfolio

Our Dynatrace Migrations service forms part of Computacenter’s Enterprise Observability solutions.

These solutions help customers to migrate to Dynatrace rapidly on priority services while embedding standards, operational practices, and reusable patterns.

SERVICE DESCRIPTION – SUPPORTING INFORMATION

Cloud & Applications services portfolio

Integral to our Implementation services, it forms part of our wider service portfolio aimed at support our customers at every stage of their technology adoption.

When leveraged with our Design & Architecture, Deployment & Integration and Proof of Value services, customers are able to migrate quick and in a deliver-focused way in their Enterprise Observability journey with confidence and clarity.
