COMPUTACENTER SOCIAL VALUE AND LEGAL STATEMENTS

Social Value Statement

Computacenter has a strong, long-standing commitment to delivering social value to the communities in which we operate. This is underpinned by our Sustainability Strategy, which focuses on the following 3 pillars:

- **People:** Supporting people and communities around the world
- **Planet:** Ensuring sustainable operations
- **Solutions:** Delivering sustainability through technology

While this strategy is in place across our global organisation, it aligns well to the 5 themes of the UK Government's Social Value Model and underpins our tailored approach to delivering social value through our government contracts in the UK. As a UK headquartered company and strategic supplier to UK government, Computacenter is proud of our strong track record in delivering social value within the UK specifically, but our global framework and reach provides us with opportunities to deliver social value on a much greater scale.

Our success in delivering social value through our global sustainability strategy is evidenced through the key recent achievements outlined below:

- TIME magazine has named Computacenter as one of the **World's Best Companies** where we have been recognised globally in three areas: employee satisfaction, revenue growth and sustainability (ESG). This highlights our commitment to our people, our planet and to delivering sustainable growth.
- The support we have provided to the Beyond Food Foundation through our joint '**Fresh Lives**' programme has included technology donations and funding to set up the programme as well as Computacenter employees volunteering their time to run CV and employability workshops. This is already having a demonstrable effect in reducing recidivism, with **60% of prison leavers** who take part in the programme gaining employment, with **86%** of those people still employed a year later.
- Our long-term carbon emissions reduction and net zero targets have been approved by the Science-Based Targets Initiative (SBTi) which, coupled with our A- rating from CDP for our latest Climate Change Survey disclosure demonstrates our strong commitment to fighting climate change and reaching **net zero emissions by 2050**.
- Our commitment to fighting climate change was further highlighted through our recognition as a Climate Leader in the Financial Times' Europe's Climate Leaders 2024 report, where we ranked **16th overall, 3rd of all UK-based organisations** and **1st in the UK technology sector**.
- Ecovadis have recognised our overall ESG performance by awarding us a silver rating at a global level, placing us within the **top 8%** of all organisations assessed
- We have been recognised as a 'Top Employer' by the Top Employers Institute for the last 2 years as being one of the UK's best places to work, as well as further recognition through our Great Place To Work certification.
- Our people-led **Ethnic Diversity Employee Impact Group** has been nominated in the category of 'Network Group' in the 2024 Ethnicity Awards from Investing in Ethnicity, demonstrating our strong commitment to championing ethnic diversity within our organisation and the wider industry.
- Computacenter were highly commended in the CRN Sustainability in Tech Awards 2024 in the **Circular Economy Company of the Year** category.
- In 2025, Rate my Apprenticeship and the Department for Education recognised Computacenter as a **Top 100 employer** for apprenticeships.

SERVICE DESCRIPTION – SMART SPACES IMPLEMENTATION & SUPPORT

OVERVIEW

Service Description

Computacenter's Smart Spaces service delivers end-to-end planning, deployment, and management of IoT-enabled workplace environments for UK government organisations. We design and install smart building solutions using sensors to monitor occupancy, environmental conditions, and energy usage, all connected to a secure cloud platform. Real-time analytics enable automation—adjusting lighting or HVAC to improve comfort and efficiency. We integrate with existing IT and building systems to create seamless, data-driven environments. Post-deployment, we provide user training and 24/7 support, including remote monitoring and updates, to ensure secure, optimised, and sustainable smart spaces that enhance user experience and reduce operational costs.

Key Features for our Customers

- *IoT sensor deployment: Occupancy, environment & energy monitoring devices installed*
- *Smart automation: Auto-adjust lighting/HVAC based on occupancy & schedule*
- *Real-time analytics dashboard: Live data on space utilisation and comfort*
- *Room & desk booking integration: Live availability and reservation functionality*
- *Digital signage & wayfinding: Interactive maps and indoor navigation kiosks*
- *User interface apps: Mobile/web apps for space booking and controls*
- *System integration: Connects with BMS, security systems and IT platforms*
- *Alerts & notifications: Automatic alerts for air quality or occupancy thresholds*
- *Secure platform: Encrypted data, compliant with government security standards*
- *Scalable deployment: Solution spans from single offices to multiple sites*

Key Benefits for our Customers

- *Optimised space utilisation: Identify underused areas to reduce costs.*
- *Enhanced employee experience: Comfortable, tech-enabled workplaces boost productivity and morale*
- *Energy efficiency: Automated systems reduce energy waste and carbon footprint*
- *Improved health & safety: Air quality monitoring ensures healthy indoor environments*
- *Decision support: Real-time analytics inform smarter facility and real-estate decisions*
- *Agility & scalability: Flexible solution adapts to changing needs and new technologies*
- *Compliance & security: Meets data protection and citizen privacy requirements.*
- *Increased ROI: Better utilisation and efficiency deliver tangible cost savings*
- *Remote management: Central cloud platform allows 24/7 monitoring and adjustments*
- *Better collaboration: Connected spaces enable inclusive, seamless in-person and virtual teamwork*

SERVICE DESCRIPTION – SUPPORTING INFORMATION

Workplace services portfolio

What we do: our Workplace portfolio

Our Microsoft Teams Rooms Implementation service forms part of our Workplace services portfolio.
