Introduction

This G-Cloud 15 Service Definition Document describes Computacenter's advisory service to help customers select the appropriate Cloudera platform and tooling to meet their cloud and application requirements. We can also further assist the customer by acting as a reseller through our partnership with Cloudera where we can normally provide discounts from the publicly listed prices provided by the vendor.

Computacenter Social Value and Legal Statements

Social Value Statement

Computacenter has a strong, long-standing commitment to delivering social value to the communities in which we operate. This is underpinned by our Sustainability Strategy, which focuses on the following 3 pillars:

- **People:** Supporting people and communities around the world
- **Planet:** Ensuring sustainable operations
- **Solutions:** Delivering sustainability through technology

While this strategy is in place across our global organisation, it aligns well to the 5 themes of the UK Government's Social Value Model and underpins our tailored approach to delivering social value through our government contracts in the UK. As a UK headquartered company and strategic supplier to UK government, Computacenter is proud of our strong track record in delivering social value within the UK specifically, but our global framework and reach provides us with opportunities to deliver social value on a much greater scale.

Our success in delivering social value through our global sustainability strategy is evidenced through the key recent achievements outlined below:

- TIME magazine has named Computacenter as one of the **World's Best Companies** where we have been recognised globally in three areas: employee satisfaction, revenue growth and sustainability (ESG). This highlights our commitment to our people, our planet and to delivering sustainable growth.
- The support we have provided to the Beyond Food Foundation through our joint '**Fresh Lives**' programme has included technology donations and funding to set up the programme as well as Computacenter employees volunteering their time to run CV and employability workshops. This is already having a demonstrable effect in reducing recidivism, with **60% of prison leavers** who take part in the programme gaining employment, with **86%** of those people still employed a year later.

- Our long-term carbon emissions reduction and net zero targets have been approved by the Science-Based Targets Initiative (SBTi) which, coupled with our A- rating from CDP for our latest Climate Change Survey disclosure demonstrates our strong commitment to fighting climate change and reaching **net zero emissions by 2050**.
- Our commitment to fighting climate change was further highlighted through our recognition as a Climate Leader in the Financial Times' Europe's Climate Leaders 2024 report, where we ranked **16th overall, 3rd of all UK-based organisations** and **1st in the UK technology sector**.
- Ecovadis have recognised our overall ESG performance by awarding us a silver rating at a global level, placing us within the **top 8%** of all organisations assessed
- We have been recognised as a 'Top Employer' by the Top Employers Institute for the last 2 years as being one of the UK's best places to work, as well as further recognition through our [Great Place To Work certification](#).
- Our people-led **Ethnic Diversity Employee Impact Group** has been nominated in the category of 'Network Group' in the 2024 Ethnicity Awards from Investing in Ethnicity, demonstrating our strong commitment to championing ethnic diversity within our organisation and the wider industry.
- Computacenter were highly commended in the CRN Sustainability in Tech Awards 2024 in the **Circular Economy Company of the Year** category.
- In 2025, Rate my Apprenticeship and the Department for Education recognised Computacenter as a Top 100 employer for apprenticeships.

Legal Statement

Computacenter Cloudera Product Selection and Resale Advisory Service

Service Description

Computacenter's Cloudera Product Selection and Resale Advisory Service helps UK public sector organisations select, design and procure the right Cloudera technologies. We capture requirements, design high-level solutions, and act as a value-added reseller, advising across Cloudera product lines and securing best available pricing up to list price.

Features	Benefits
Structured capture of business and technical requirements	Confident selection of appropriate Cloudera products
High-level solution design across Cloudera product lines and capabilities	Reduced risk of poor platform and technology choices
Cloudera technology and capability mapping	Better value for money on Cloudera procurement
Alignment to security, governance and compliance needs	Clear alignment between needs, design and cost
Cost modelling and option comparison	Simplified procurement across Cloudera product lines
Independent, vendor-informed recommendations	Transparent, defensible technology decisions
Value-added reseller procurement support	Faster progression from planning to delivery
Best-available pricing at point of contract	Increased confidence in Cloudera technology investment decisions
Always represents the latest Cloudera offerings	
Clear documentation and decision assurance	

Pricing for the Service

The advisory component of this service will be delivered by a team of resources aligned to the roles specified in Lot 3 aligned to our Lot 3 rate card.

Should the customer also seek to procure the Cloudera products through Computacenter we will commit to work with Cloudera through our partnership to secure discounts from list price wherever feasible. Computacenter are able to offer any products and services that are available from Cloudera during the term of the GCloud15 framework.
