Computacenter - Developer Platform Adoption

SERVICE DESCRIPTION – DEVELOPER PLATFORM ADOPTION

OVERVIEW

Service Description

The Developer Platform Adoption service helps enterprises maximise return on investment by increasing effective use of their developer platform. Focusing on people, process, technology and governance, it builds on the Developer Platforms Strategy work to embed DevEx and Platform Engineering practices, driving sustainable adoption and enhanced software delivery outcomes.

Key Features for our Customers

- ❖ Thinnest Viable Platform charter defined with leadership and stakeholders
- ❖ Initial platform buildout delivered and validated for early adoption
- ❖ Reusable pipeline templates created to standardise software delivery
- ❖ Comprehensive onboarding guides published for consistent team enablement
- ❖ Self-service documentation enabling efficient, scalable platform adoption
- ❖ Office hours offered to support teams and accelerate onboarding
- ❖ Standard onboarding pattern established for new domains or technologies
- ❖ Continuous feedback loop running via surveys, retrospectives, metrics
- ❖ Active Community of Practice driving shared learning and improvement
- ❖ Quarterly roadmap reviews aligning platform goals with business priorities

Key Benefit for our Customers

- ❖ Improves platform clarity and reduces decision bottlenecks
- ❖ Accelerates early adoption through validated platform foundations
- ❖ Standardises delivery patterns and reduces deployment variability
- ❖ Shortens onboarding time with clear, reusable guidance
- ❖ Enables self-service adoption and reduces support dependency
- ❖ Accelerates issue resolution through structured expert support
- ❖ Reduces onboarding effort with consistent, repeatable processes
- ❖ Improves decision-making using continuous feedback and insights
- ❖ Strengthens collaboration and knowledge-sharing across delivery teams
- ❖ Aligns platform evolution with business priorities, reducing strategic risk

Invoicing Process

Customers are invoiced monthly with 30 days net payment terms.

Computacenter Social Value and legal statements

Social Value Statement

Computacenter has a strong, long-standing commitment to delivering social value to the communities in which we operate. This is underpinned by our Sustainability Strategy, which focuses on the following 3 pillars:

- **People:** Supporting people and communities around the world
- **Planet:** Ensuring sustainable operations
- **Solutions:** Delivering sustainability through technology

While this strategy is in place across our global organisation, it aligns well to the 5 themes of the UK Government's Social Value Model and underpins our tailored approach to delivering social value through our government contracts in the UK. As a UK headquartered company and strategic supplier to UK government, Computacenter is proud of our strong track record in delivering social value within the UK specifically, but our global framework and reach provides us with opportunities to deliver social value on a much greater scale.

Our success in delivering social value through our global sustainability strategy is evidenced through the key recent achievements outlined below:

- TIME magazine has named Computacenter as one of the **World's Best Companies** where we have been recognised globally in three areas: employee satisfaction, revenue growth and sustainability (ESG). This highlights our commitment to our people, our planet and to delivering sustainable growth.
- The support we have provided to the Beyond Food Foundation through our joint '**Fresh Lives**' programme has included technology donations and funding to set up the programme as well as Computacenter employees volunteering their time to run CV and employability workshops. This is already having a demonstrable effect in reducing recidivism, with **60% of prison leavers** who take part in the programme gaining employment, with **86%** of those people still employed a year later.
- Our long-term carbon emissions reduction and net zero targets have been approved by the Science-Based Targets Initiative (SBTi) which, coupled with our A- rating from CDP for our latest Climate Change Survey disclosure demonstrates our strong commitment to fighting climate change and reaching **net zero emissions by 2050**.
- Our commitment to fighting climate change was further highlighted through our recognition as a Climate Leader in the Financial Times' Europe's Climate Leaders 2024 report, where we ranked **16th overall, 3rd of all UK-based organisations** and **1st in the UK technology sector**.
- Ecovadis have recognised our overall ESG performance by awarding us a silver rating at a global level, placing us within the **top 8%** of all organisations assessed
- We have been recognised as a 'Top Employer' by the Top Employers Institute for the last 2 years as being one of the UK's best places to work, as well as further recognition through our [Great Place To Work certification](#).
- Our people-led **Ethnic Diversity Employee Impact Group** has been nominated in the category of 'Network Group' in the 2024 Ethnicity Awards from Investing in Ethnicity, demonstrating our strong commitment to championing ethnic diversity within our organisation and the wider industry.
- Computacenter were highly commended in the CRN Sustainability in Tech Awards 2024 in the **Circular Economy Company of the Year** category.
- In 2025, Rate my Apprenticeship and the Department for Education recognised Computacenter as a Top 100 employer for apprenticeships.
