COMPUTACENTER SOCIAL VALUE AND LEGAL STATEMENTS

Social Value Statement

Computacenter has a strong, long-standing commitment to delivering social value to the communities in which we operate. This is underpinned by our Sustainability Strategy, which focuses on the following 3 pillars:

- **People:** Supporting people and communities around the world
- **Planet:** Ensuring sustainable operations
- **Solutions:** Delivering sustainability through technology

While this strategy is in place across our global organisation, it aligns well to the 5 themes of the UK Government's Social Value Model and underpins our tailored approach to delivering social value through our government contracts in the UK. As a UK headquartered company and strategic supplier to UK government, Computacenter is proud of our strong track record in delivering social value within the UK specifically, but our global framework and reach provides us with opportunities to deliver social value on a much greater scale.

Our success in delivering social value through our global sustainability strategy is evidenced through the key recent achievements outlined below:

- TIME magazine has named Computacenter as one of the **World's Best Companies** where we have been recognised globally in three areas: employee satisfaction, revenue growth and sustainability (ESG). This highlights our commitment to our people, our planet and to delivering sustainable growth.
- The support we have provided to the Beyond Food Foundation through our joint **'Fresh Lives' programme** has included technology donations and funding to set up the programme as well as Computacenter employees volunteering their time to run CV and employability workshops. This is already having a demonstrable effect in reducing recidivism, with **60% of prison leavers** who take part in the programme gaining employment, with **86%** of those people still employed a year later.
- Our long-term carbon emissions reduction and net zero targets have been approved by the Science-Based Targets Initiative (SBTi) which, coupled with our A- rating from CDP for our latest Climate Change Survey disclosure demonstrates our strong commitment to fighting climate change and reaching **net zero emissions by 2050**.
- Our commitment to fighting climate change was further highlighted through our recognition as a Climate Leader in the Financial Times' Europe's Climate Leaders 2024 report, where we ranked **16th overall, 3rd of all UK-based organisations** and **1st in the UK technology sector**.
- Ecovadis have recognised our overall ESG performance by awarding us a silver rating at a global level, placing us within the **top 8%** of all organisations assessed
- We have been recognised as a 'Top Employer' by the Top Employers Institute for the last 2 years as being one of the UK's best places to work, as well as further recognition through our Great Place To Work certification.
- Our people-led **Ethnic Diversity Employee Impact Group** has been nominated in the category of 'Network Group' in the 2024 Ethnicity Awards from Investing in Ethnicity, demonstrating our strong commitment to championing ethnic diversity within our organisation and the wider industry.
- Computacenter were highly commended in the CRN Sustainability in Tech Awards 2024 in the **Circular Economy Company of the Year** category.
- In 2025, Rate my Apprenticeship and the Department for Education recognised Computacenter as a **Top 100 employer** for apprenticeships.

SERVICE DESCRIPTION TELEMETRY STRATEGY, INSTRUMENTATION & COST OPTIMISATION SERVICE

OVERVIEW

Service Description

Structured telemetry service enabling organisations to rationalise, instrument, and govern logs, metrics, and traces across hybrid and cloud environments. It delivers high value telemetry to platforms such as Dynatrace, Datadog, New Relic, Grafana, Splunk, and Coralogix, using OpenTelemetry and optional routing tools like Cribl to control cost and scale.

Key Features for our Customers

- *Telemetry data consulting and assessment*
- *Log onboarding and normalisation*
- *Metrics and traces instrumentation guidance*
- *OpenTelemetry standard adoption*
- *Ingestion and routing design*
- *Telemetry filtering and enrichment*
- *Platform specific optimisation patterns*
- *Cost and volume modelling*
- *Governance and retention policies*
- *Handover and documentation*

Key Benefit for our Customers

- *Reduced telemetry ingestion costs*
- *Higher signal to noise ratio*
- *Consistent telemetry across platforms*
- *Faster troubleshooting and analysis*
- *Avoidance of redundant data ingestion*
- *Predictable observability spend*
- *Improved data quality and trust*
- *Future proof instrumentation standards*
- *Better cross tool interoperability*
- *Scalable telemetry operating model*

SERVICE DESCRIPTION – SUPPORTING INFORMATION

Cloud & Applications services portfolio

Our Telemetry Strategy, Instrumentation & Cost Optimisation Service forms part of Computacenter’s Enterprise Observability solutions.

SERVICE DESCRIPTION – SUPPORTING INFORMATION

Cloud & Applications services portfolio

Integral to our Implementation services, it forms part of our wider service portfolio aimed at support our customers at every stage of their technology adoption.

When leveraged with our Design & Architecture & Expert Services, customers are able to plan unified visibility at Enterprise level with confidence and clarity.
