G-Cloud 15: Pricing for MDR for Microsoft

How to use this pricing table

1. Choose the data tier that matches the maximum amount of log data you expect to send to Microsoft Sentinel each month.
2. The monthly price shown is your fixed charge for Claranet's Managed Detection & Response service at that tier.
3. If your data volume increases, you can move to a higher tier at any time, and it will simply align with your existing contract term.
4. Apply multi-year discount (min 5% for 24 months, min 10% for 36 months).
5. All tiers include Claranet's 24/7 monitoring, investigation, and incident response for Microsoft Sentinel.
