The following additional support can be provided under Cloud Support Services for resource-based work:

- Custom attribute configuration / api customisation and integration.
- Workflow and branding customisation.
- Quality assurance and systems integration support.
- Data synchronisation to/from external RDBMS, Microsoft Active Directory (other 3rd party source systems and cloud services).
- Data profiling quality and cleaning.
- Metadata publishing and meta data management.
- Service desk resources to manage data and collections.

¹ Email and telephone support is capped: Basic – 1 hour per month; Premium – 24 hours/month; Enterprise – 80 hours/month.

Contact hours are between 9 a.m. and 5 p.m. Monday to Friday (excluding UK bank holidays).

For enterprise customers, priority 1 severity (defined as service downtime) response is within 1 hour.

24/7 support coverage is available for an additional charge.
