

Glasscubes G Cloud 15 Pricing

Glasscubes offers a commitment-free 30-day trial. Our cloud-based service can then be subscribed to on a monthly or prepaid annual basis.

Glasscubes is priced per user. You only pay for the exact number of users that you require. The more users you add, the lower the average price per user that you pay.

The table below shows examples of monthly per-user pricing based on an annual prepayment, excluding VAT. If you require a quote for a specific quantity of users, please contact us.

No. of users	5	25	50	100	250	500	1,000	2,500	5,000	10,000	20,000

Monthly Subscriptions

Perfect for smaller project teams. Simply start using Glasscubes for a small fee, then as you grow, add users as you need them and just pay monthly. If, for any reason, a project comes to an end halfway through the year and you need to scale back, it's not a problem; there's **no annual contract**.

Annual Prepayments

The discounted user fees shown above are extended to customers who prepay for an annual period. The number of user subscriptions that are required for the year is agreed in advance. If the number of prepaid user subscriptions exceeds the agreed limit in any month of the term, an invoice is raised for the difference; any additional user subscriptions will not be eligible for the annual prepayment discount.
