End-to-end cloud services

For all stages of your journey

Readiness and Enablement

No matter the stage of your cloud journey, we can provide services to create your strategy, enact that strategy and optimise your adoption. From ways of working to total cost of ownership, our cloud strategy and architecture services provide the kick start for customers on their cloud journey.

Migration and Transformation

Cloud as a platform can be complex with a plethora of services and technologies available. Our migration and transformation services provide deep experience combined with a breadth of knowledge to support your migration and transformation needs – from identity to landing zones to engineering.

Operate and Optimise

Continuous improvement is at the heart of our operational and optimisation services, to ensure that your workloads are running as efficiently as possible – and that you only use what you need, when you need it. From observability to FinOps, trust us for best practice and depth of experience.

What is a Landing Zone?

Version 1

Landing Zones

Accelerate Your Cloud Journey

- A Landing Zone provides the foundation for a pre-configured and standardized environment within a cloud platform according to Cloud Adoption Framework best practices
- Foundational services - Networking, Security, Access Control, Governance, Monitoring and Logging are provided out-of-the-box to get you going quickly
- Terraform based - an industry standard, widely adopted and mature open-source Infrastructure as Code (IaC) software tool.
- Multi-Cloud. Automation at its core - support for automated deployment and management of the Landing Zone using Azure DevOps, AWS CodeCommit or Oracle Cloud OCI DevOps.

Why a Version 1 Cloud Landing Zone?

Best Practice Design

We help you plan your cloud tenancy from the top down ensuring your account structure aligns with your needs, allowing business units to operate autonomously while adhering to your organization's policies

Rapid Deployment

Using our Landing Zone accelerator, we accelerate your cloud journey as your accounts are built with all the key features (security, networking, governance, identity, cost management) baked in

Secure by Design

Through our experience, every aspect of security is considered, from secure network security and centralized tooling, to solid Access Control and best practices such as the Principle of Least Access. Our solution aligns with NCSC Cloud Principles.

Enabling Innovation

With the tools to rapidly deploy (and destroy) sandbox accounts, your developers can experiment as quickly as a new idea forms

Cost Management

Centralised account management allows for consolidated billing, ensuring ongoing cost optimisation using cloud vendor native tooling

Scalable

We understand the importance of being able to securely scale your environments without having to go back to the drawing board each time, our landing zone enables rapid vending of new environments with guardrails built in

Landing Zone Technical Features

- A Landing Zone provides you with the foundations to enable workload migrations and development of new applications leveraging cloud services
- Gives you management, governance and security of your Azure subscriptions out of the box
- Foundational services (Networking, Identity, Governance, Policy) in a best practice configuration out of the box

Identity

- SSO
- Enterprise IdP integration
- RBAC
- Groups and Policy

Networking

- Hub and Spoke
- Standard Network design and IPAM
- Firewall and WAF
- Networks Security Groups

Backup / DR

- Backup Tooling
- Multi-Region
- DR Tooling

Organization / Tenancy

- Management Groups
- Subscriptions

Governance/Compliance

- Policy and Guardrails
- CIS Benchmark
- Naming Conventions
- Tagging Policy

Security

- CSPM
- Secrets Management
- Encryption
- Secure Remote Access

Operations

- Centralized Monitoring
- Centralised Logging
- Application Insights and Tracing

Landing Zone Engagement

Landing Zone Review

Either as a standalone engagement or as a precursor to a Landing Zone design and deployment, we can complete reviews of existing Landing Zones for compliance against **Cloud Adoption** and **Well Architected Frameworks** best practices.

Output is a presentation detailing findings with recommendations for next steps and/or remediation.

Design

Where bespoke designs are required we host workshop(s) to ensure alignment. We will bring our **Landing Zone accelerator IP** to these workshops and follow up with a design document that will be presented for review.

Once reviewed by the customer, we will update the design to provide a **finalized and agreed design document** to carry forward to deployment.

Deployment

Existing accelerator IP is used to minimise deployment time and is deployed using DevOps tooling and methodology. Specific customer requirements captured in the design are factored into the code for deployment, with all code being retained within customer organisation for future maintenance and management.

Output is a **best practice aligned Landing Zone** to host and run services.

Access services that match your needs and maturity

Version 1 Labs – Cloud Innovation Centre

A service provided to customers to explore and rapidly validate cloud and AI-empowered applications, sustainable use cases, migration and transformation.

Driving innovation in the cloud

Cloud Discovery and Assessments

Cloud Sustainability

Multi Cloud

FinOps and Cloud Optimisation

Landing Zones and AI Cloud Sandboxes

AI-powered Cloud

Cloud Native App Development

Application Modernisation

DevSecOps and Test Automation

Why use our Labs?

To better understand how AI-powered and Cloud technologies can impact your business

To inform business case development and investment - using concrete and first-hand evidence, knowledge and experience

How do we engage?

Proof of Concept/Context (PoC) development

Collaborative engagement model

Agile development methodology

Business-led cloud transformation specialists

Re-think how people, process, and technology can play together. And adopt, optimise and leverage cloud to unlock new or enhanced business value and innovation.

Innovate and drive value from the cloud

Business-led cloud transformation approach

We focus on cloud as an enabler for value and innovation. We believe that all IT investments must start with a deep understanding of business, and that successful cloud transformations focus heavily on business outcomes, not just technical.

Global Cloud Transformation expertise recognised by hyperscalers

Technology partners recognise our global cloud experience and leadership in cloud strategy, services, and innovation: AWS Migration Partner of the Year 2022, AWS Collaboration Partner 2023, Oracle Innovation Partner of the Year 2023, Microsoft 2023 Modernizing Applications Award

Breadth and depth of capabilities - from strategy to ways of working

With deep skills across a broad technology stack, our expert team of cloud specialists can help you with virtually any transformation challenge you're experiencing.

Unique cloud transformation IP

We've invested significantly in building cloud transformation accelerators which enable us to transform customers' estates at pace.

Innovative at our core

We help our customers plan a cloud journey that sets their business up for the future, by embracing cutting-edge technology and leveraging disruptive technology such as Generative AI.

Rich heritage in delivering across many sectors and industries

Version 1 has a strong track record in delivering successful cloud transformation programs for customers across many industries and technology stacks.

About Version 1

Version 1 at a glance

29 years of experience

13 global locations

6 strategic technology partners

13 years as a great place to work

Industry best practice

€364M+ revenue 2024

82% employee engagement score (Q2 2025)

85% customer satisfaction score (Q2 2025)

The Version 1 difference

The core values at the heart of Version 1's success.

**Honesty and
integrity**

**Personal
commitment**

No ego

Customer first

Women in Tech members

Our four strategic ESG pillars:

**Environment
sustainability**

**Ethical
Practices**

**Responsible
Procurement**

**Social
Impact**

As a participant of the United Nations Global Compact, Version 1 is committed to aligning strategies and operations with universal principles on human rights, labour, environment and anti-corruption

Our services portfolio

Application Modernisation and Integration

Accelerating the modernisation of applications embracing sustainable engineering and AI-assisted development.

Legacy systems modernisation

Continuous modernisation

Next Gen Apps

Integrated Apps

Portfolio modernisation

Experience Design and Development

Designing, shaping and building products and solutions that deliver fantastic people and societal experiences.

Digital strategy and innovation

Product management and roadmaps

Behavioural research, analysis and journey mapping

Creative design and UX services

Product development and AI accelerated engineering

Envisioning and innovation workshops

Enterprise Applications

Optimising the core of your business with deep functional and technical expertise in Finance, People, Customer and Enterprise Performance Management (EPM).

Reshaping finance for the future

Elevating HR and people operations

Enhancing supply chain management

Amplifying customer touchpoints

Realising value with Data insights and AI

Data x AI

Becoming an intelligent, data driven organisation needs quality data x AI to make better decisions and processes.

Data strategy and architecture

Data engineering

Data analytics and visualisation

Data modernisation

Data governance

AI co-creation services

Cloud Transformation

Adopting, optimising and leveraging Cloud to unlock new or enhanced business value and innovation.

Industry specific cloud

Readiness and enablement

Migration and transformation

Operate and optimise

Specialist services

ASPIRE Managed Services

Reduce time, cost and risk by leveraging our VLA approach to run and optimise traditional and Cloud services to improve business agility and accelerate innovation.

Cloud and infrastructure management and optimisation

Oracle SaaS management and optimisation

Data and AI managed services

EBS, Peoplesoft and JDE managed service

Application management and optimisation

Digital workplace services

Our global technology partners

- Named **AWS Collaboration Partner of the Year 2024**
- Named **Global Microsoft Modernising Applications Partner of the Year Award 2023**
- Named **Microsoft Ireland Partner of the Year 2023 Winner - Social Impact**
- Named **Innovation Partner of the Year Winner - 2023 Oracle EMEA Partner Awards**
- Named **AWS Collaboration Partner of the Year - EMEA 2023**
- Named **AWS Migration Partner of the Year - EMEA 2022**
- Named **OutSystems Partner of the Year 2021**

Microsoft Partner

Azure Expert MSP

As an Azure Expert MSP and the Global Modernising Applications Partner of the Year 2023, Version 1 boasts extensive expertise across the Microsoft stack.

Premier
Consulting
Partner

An AWS Premier Consulting Partner and EMEA Migration Partner of the Year, Version 1's unrivalled expertise boasts deep expertise with 400 certifications and accreditations.

ORACLE | Partner

With 28+ years of Oracle ecosystem expertise, we're a certified Oracle Modern OPN Partner and Cloud Solutions Provider - One of Europe's most distinguished Oracle Cloud partners.

As a Premier Red Hat partner, we are experts in hybrid-cloud models and OpenShift, recognised for driving innovative solutions using Red Hat technologies.

An OutSystems Partner for Sales, Delivery and Quality Apps Program Partner, Version 1 is committed to unlocking value for our customers through low code development.

As a Snowflake Partner Version 1 enables customers to leverage Snowflake's flexibility, performance, and ease of use to deliver more meaningful data insights.
