

Cloud Readiness and Enablement Services

Powered by
Evolve

A Clear Path to Realising Value from your Cloud Investment

Surface the information and data you need for informed decision making. No more guessing.

Informed & Insightful Decision Support

Value prioritisation - Identify where the value lies, how to realise that and how to get there.

Deliver Value, Early and Often

Innovate and Differentiate

Access breadth and depth of innovation experience across industries and sectors to accelerate change.

Setup for Success

Ensure your transformation is sustainable and at a pace that you can absorb

Drive Actions

Define and measure success, understand the critical path and the priorities that realise your objectives.

Business Driven

Combine technical needs and challenges with tangible business goals and objectives.

Why EVOLVE?

Our Business Led Transformation Framework

We believe that all IT investments must start with a deep understanding of *business*, before considering *application*, *data* and *technology domains*. We provide a structured process leading from business and current state understanding through options ideation to a robust prioritisation approach that focuses on *business outcome delivery*.

Core Principles

**Business Led
Tx**

**Relentless
Focus on
Business
Value**

**Release Value
Quickly**

**Apply User
Centred
Design**

**Continual KPI
& Outcome
Measurement**

Evolve Discover

Enabling Transformation

ASSESS

The business need
"what you need and what you have"

- ✓ Understand Business Drivers
- ✓ Define Vision and Objectives
- ✓ Define success
- ✓ Collect just enough data

Rapid discovery and definition of the vision and objectives, compelling events and success factors. Compile just enough business and technical data for informed decision making.

DEFINE

Options, current & future state
"what it means"

- ✓ Understand Perspectives
- ✓ Quantify risk and identify mitigation
- ✓ Explore options
- ✓ Define the future

Puts your needs and objectives into context by exploring options and future states, supported by the data gathered. Apply different perspectives to qualify options.

SHAPE

Plan and Execute
"what to do"

- ✓ Set out the recommendations
- ✓ Define the Roadmap
- ✓ Clarity of resourcing and effort
- ✓ Clear path to deliver value incrementally and often

Establish the actions to take forward and that will ensure success. Place these actions into an overall backlog and plan - and define the resources and effort needed to realise your objectives and deliver value.

Our 3 simple steps to enlighten and strategise deliver insight often lacking, focusing on business and technical needs. They aim to deliver tangible and actionable outcomes that deliver real value, incrementally and often.

I need a strategy/ plan

Cloud adoption: a business imperative

"By 2028, modernisation efforts will culminate in **70% of workloads running in a cloud environment**, up from 25% in 2023."

Gartner

"Cloud Adoption is helping companies achieve **rapid and outcome-focused** digital transformation"

Deloitte

"Cloud can generate about **\$3 trillion in EBITDA** by 2030.

The value cloud generates from enabling businesses to innovate is **worth more than 5 times** what is possible by simply reducing IT costs."

For all stages of your journey

Readiness and Enablement

No matter the stage of your cloud journey, we can provide services to create your strategy, enact that strategy and optimise your adoption. From ways of working to total cost of ownership, our cloud strategy and architecture services provide the kick start for customers on their cloud journey.

Migration and Transformation

Cloud as a platform can be complex with a plethora of services and technologies available. Our migration and transformation services provide deep experience combined with a breadth of knowledge to support your migration and transformation needs – from identity to landing zones to engineering.

Operate and Optimise

Continuous improvement is at the heart of our operational and optimisation services, to ensure that your workloads are running as efficiently as possible – and that you only use what you need, when you need it. From observability to FinOps, trust us for best practice and depth of experience.

Helping our customers adopt and adapt

We have extensive experience in the early adoption stages of Cloud Transformation, from organisational change to deep and extensive technical expertise.

Readiness and Enablement

Strategy and Organisational Change Services

Unleash your organisations potential by understanding and addressing the changes needed to adopt cloud successfully and permanently with an informed cloud strategy that focuses on technical, non-technical considerations and benefits of cloud.

Technical Enablement Services

Elevate your technical agility with our Technical Enablement and Services, ensuring a smooth cloud transition and enduring operational excellence through our advanced cloud solutions.

Assessment Services

Unlock the potential of digital transformation with our Assessment Services, offering comprehensive evaluations for strategic cloud integration, fostering innovation, and driving long-term growth through tailored technological insights and solutions.

Access services that match your needs and maturity

Summary of Our Readiness and Enablement Services

Cloud Strategy Services

Strategy Definition

Utilise our phased cloud strategy definition framework to define your cloud strategy and optimal operating model, and the actions you need to take to enact that strategy.

Strategy Validation

Concerned that you have made the right strategic choices and need independent advice? Our Cloud Strategy Definition engagement will review your strategy against your business and technical goals – and where necessary making recommendations for change.

Driving Business Value
How the strategy delivers value

Benefits Case
Short- and Long-Term Benefits

Am I ready for cloud?
Is my organisation ready from a governance, people and process pov?

Which Cloud Model?
Single, Multi, Poly, Hybrid....

ROI and TCO
Do the economics stack up?

What's my target state?
Principles, which technologies?

Which Provider(s)?
Microsoft, AWS, Google, Oracle

Method of Adoption
Should I migrate or build new?

Exit Strategy
Do I need one and what does it look like?

The Economics of Cloud
Opex v Capex, FinOps - Am I ready?

Priorities and Critical Path
What steps do I take and when?

What have I to work with?
Inventory of your portfolio

A simple 3-step process which:

1. Reviews your current position including your business drivers and goals
2. Comparison of your cloud strategy to those goals and state of the market – and our experience across sectors and industries
3. Recommendations for change or assurance of decisions already made

OACA Cloud Maturity Assessment

Cloud Vendor Tools

Version 1 IP and CAF
Supporting Tools

Culture and Leadership	Governance & Processes	Skills and Training
Roles and Responsibilities	Communications	Cloud Economics
Operating Model & Organisational Structure	Technology & Services	Operations

Assessment and support for cloud adoption focused on the organisational changes across all the above pillars to facilitate success.

Cloud Adoption and Organisational Change Services

Supported by Version 1 IP, 3rd Party and Cloud Vendor Tools

Cloud Migration Discovery & Assessment

Phasing, Activities and Deliverables

Landing Zone Engagement

Landing Zone Review

Either as a standalone engagement or as a precursor to a Landing Zone design and deployment, we can complete reviews of existing Landing Zones for compliance against **Cloud Adoption** and **Well Architected Frameworks** best practices.

Output is a presentation detailing findings with recommendations for next steps and/or remediation.

Design

So that customer requirements are fully captured and understood we host workshop(s) to ensure alignment. We will bring our **Landing Zone accelerator IP** to these workshops and follow up with a design document that will be presented for review.

Once reviewed by the customer, we will update the design to provide a **finalized and agreed design document** to carry forward to deployment.

Deployment

Existing accelerator IP is used to minimise deployment time and is deployed using DevOps tooling and methodology. Specific customer requirements captured in the design are factored into the code for deployment, with all code being retained within customer organisation for future maintenance and management.

Output is a **best practice aligned Landing Zone** to host and run services.

FinOps Consulting Services

Establish enduring FinOps capability and understand the value of cloud spend

DevOps Maturity Assessment

Introductory Call

One of our Business Development team will reach out to understand why you'd like to take our DevOps Maturity Assessment and explain the steps involved in this process.

Assessment & Results

At least three of your technical and non-technical staff can take our DevOps Maturity Assessment and we will provide results in a PowerPoint format.

Workshops

Version 1 Engineers will then guide you through this PowerPoint virtually or on-site to further explain concepts and help guide you to act on the results of your assessment.

Follow Up

We will check in to see how your DevOps processes are evolving and give additional feedback for management on how to keep promoting DevOps within the organisation.

Version 1 Cloud Architecture and Design Services

Our **certified experts** provide state-of-the-art cloud architecture and design services across public cloud providers. We are AWS (Amazon Web Services), Microsoft (MS) Azure, Oracle and RedHat partners, leveraging proven, well architected cloud solutions and accelerators such as landing zones, Kubernetes and OpenShift platforms. We maintain a vendor-agnostic, customer-first approach to architecture.

Cloud Native

Cloud Native AI provides the groundwork to safely and securely to deploy, run, scale and operate AI workloads whilst optimising cost and performance.

Version 1 Labs - Cloud Innovation Centre

A service provided to customers to explore and rapidly validate cloud and AI-empowered applications, sustainable use cases, migration and transformation.

Why use our Labs?

To better understand how AI-powered and Cloud technologies can impact your business

To inform business case development and investment - using concrete and first-hand evidence, knowledge and experience

How do we engage?

Proof of Concept/Context (PoC) development

Collaborative engagement model

Agile development methodology

Business-led cloud transformation specialists

Re-think how people, process, and technology can play together. And adopt, optimise and leverage cloud to unlock new or enhanced business value and innovation.

Innovate and drive value from the cloud

Business-led cloud transformation approach

We focus on cloud as an enabler for value and innovation. We believe that all IT investments must start with a deep understanding of business, and that successful cloud transformations focus heavily on business outcomes, not just technical.

Global Cloud Transformation expertise recognised by hyperscalers

Technology partners recognise our global cloud experience and leadership in cloud strategy, services, and innovation: AWS Migration Partner of the Year 2022, AWS Collaboration Partner 2023, Oracle Innovation Partner of the Year 2023, Microsoft 2023 Modernizing Applications Award

Breadth and depth of capabilities - from strategy to ways of working

With deep skills across a broad technology stack, our expert team of cloud specialists can help you with virtually any transformation challenge you're experiencing.

Unique cloud transformation IP

We've invested significantly in building cloud transformation accelerators which enable us to transform customers' estates at pace.

Innovative at our core

We help our customers plan a cloud journey that sets their business up for the future, by embracing cutting-edge technology and leveraging disruptive technology such as Generative AI.

Rich heritage in delivering across many sectors and industries

Version 1 has a strong track record in delivering successful cloud transformation programs for customers across many industries and technology stacks.

About Version 1
