

# Cloud Management and Optimisation

# The Version 1 difference

# ASPIRE Cloud management and optimisation

*"How do I manage and optimise my cloud costs?"*

**Version 1 takes a multi-layered approach to cloud cost optimisation.**

- At the design stage, guardrails control spend.
- Cost optimisation continues to commencement of our managed service.
- Ongoing optimisation is then maintained through constant critical assessment in combination with our license and cost optimisation experts.

*"How do I ensure the security of my cloud environment given the increase in cyber-attacks via AI?"*

**Version 1 delivers security services that encompass:**

- Security by design.
- Best practice processes and methodologies.
- Technology and personnel with necessary security certifications and qualifications.
- Continual benchmarking against industry standards.

*"How do I ensure my multi-cloud environment is supported by a multi-skilled resource?"*

**Version 1 continually invests in our people.**

- Training and development on the latest technologies across multiple platforms is built-in to employee objectives and KPIs.
- Highly qualified cloud technology consultants with specific industry and technology expertise for expert level support.
- Multi-skilled consultants with cross industry technology skills to deliver Managed Services.

# How do you deliver optimised service agility and innovation?

Break free from technical debt, pivot like a pro and outrun the competition with a modern infrastructure. Innovate and disrupt for success.

Go beyond simply 'keeping the lights on' and **embrace the potential** of Version 1's ASPIRE managed services that **place AI, continuous improvement and business innovation at the heart of everything we do.**
