

Data Infrastructure Modernisation and Optimisation

Capture the opportunity and embrace the success with Data x AI

“
Civilisation
advances by
extending the
number of
important
operations which
we can perform
without thinking
about them
”

Whitehead
Professor at Harvard
1910

The Version 1 Difference

Your trusted data and AI partner

In an industry where aspirations often outpace reality, our focus on a comprehensive understanding of your unique challenges ensures that we deliver concrete AI-enhanced outcomes. With us, **AI is more than a buzzword** – it's a tangible shift in the integration of human intelligence, process innovation, and technological progress.

Core Principles

Business led Tx

**Relentless
focus on
business value**

**Release value
quickly**

**Apply user
centred design**

**Continual KPI
and outcome
measurement**

Data: our past, present, and future.

Kickstart

Data support through all of Version 1's Service Lines

 Application Modernisation and Integration	 Experience Design and Development	 Enterprise Applications	 Data x AI	 Cloud Transformation	 ASPIRE Managed Services
--	--	--	----------------------	-------------------------------------	--

Data Governance

The team delivers across a range of technologies, including Azure, AWS, Databricks and Snowflake. We actively encourage our clients to leverage the adaptability and specialist data engineering knowledge of the team, rather than potentially sourcing multiple individuals with one specific skillset

Production-ready Design

Production-ready design including batch, rollback and quality management integration

Testing

Specialist testing and implementation services across data platforms and integration tools

Architecture

Data and processing architecture from pattern development through to detailed design

Business Analysis

Business requirement capture and full traceability analysis aligned to solutions

Data Solutions

Development of solutions to improve ROI on Big Data platforms and tools

Kickstart

Transform

About Version 1

Our services portfolio

Application Modernisation and Integration

Accelerating the modernisation of applications embracing sustainable engineering and AI-assisted development.

Legacy systems modernisation

Continuous modernisation

Next Gen Apps

Integrated Apps

Portfolio modernisation

Experience Design and Development

Designing, shaping and building products and solutions that deliver fantastic people and societal experiences.

Digital strategy and innovation

Product management and roadmaps

Behavioural research, analysis and journey mapping

Creative design and UX services

Product development and AI accelerated engineering

Envisioning and innovation workshops

Enterprise Applications

Optimising the core of your business with deep functional and technical expertise in Finance, People, Customer and Enterprise Performance Management (EPM).

Reshaping finance for the future

Elevating HR and people operations

Enhancing supply chain management

Amplifying customer touchpoints

Realising value with Data insights and AI

Data x AI

Becoming an intelligent, data driven organisation needs quality data x AI to make better decisions and processes.

Data strategy and architecture

Data engineering

Data analytics and visualisation

Data modernisation

Data governance

AI co-creation services

Cloud Transformation

Adopting, optimising and leveraging Cloud to unlock new or enhanced business value and innovation.

Industry specific cloud

Readiness and enablement

Migration and transformation

Operate and optimise

Specialist services

ASPIRE Managed Services

Reduce time, cost and risk by leveraging our VLA approach to run and optimise traditional and Cloud services to improve business agility and accelerate innovation.

Cloud and infrastructure management and optimisation

Oracle SaaS management and optimisation

Data and AI managed services

EBS, Peoplesoft and JDE managed service

Application management and optimisation

Digital workplace services
