

Cloud Architecture and Design Services

End-to-end cloud services

For all stages of your journey

Readiness and Enablement

No matter the stage of your cloud journey, we can provide services to create your strategy, enact that strategy and optimise your adoption. From ways of working to total cost of ownership, our cloud strategy and architecture services provide the kick start for customers on their cloud journey.

Migration and Transformation

Cloud as a platform can be complex with a plethora of services and technologies available. Our migration and transformation services provide deep experience combined with a breadth of knowledge to support your migration and transformation needs – from identity to landing zones to engineering.

Operate and Optimise

Continuous improvement is at the heart of our operational and optimisation services, to ensure that your workloads are running as efficiently as possible – and that you only use what you need, when you need it. From observability to FinOps, trust us for best practice and depth of experience.

Version 1 Cloud Architecture and Design Services

Our **certified experts** provide state-of-the-art cloud architecture and design services across public cloud providers. We are AWS (Amazon Web Services), Microsoft (MS) Azure, Oracle and RedHat partners, leveraging proven, well architected cloud solutions and accelerators such as landing zones, Kubernetes and OpenShift platforms. We maintain a vendor-agnostic, customer-first approach to architecture.

Access services that match your needs and maturity
