

AI Transformation Coach

AI Transformation Coach

Quickly move from AI ambition to safe, sustainable, integrated solutions

Context

- Government departments are under sustained pressure to improve service quality, speed and productivity while controlling costs and managing risk.
- National guidance encourages wider AI adoption across the public sector, but it can be difficult to drive real progress whilst working with legacy systems, uneven data quality and capability gaps.
- Any systems need to be reliable, responsible and maintain public trust.

Our response

Our AI Transformation Coach service helps you to:

- Understand opportunities, risks and issues.
- Prioritise things that will have the most impact.
- Navigate the different options.
- Deliver responsible, reliable, scalable solutions.
- Accurately measure impact and return on investment.

AI Transformation Coach – Approach

A structured, coach-led pathway from opportunity to scaled adoption

Our approach is flexible and will be tailored to your specific situation and needs. The sections below provide an example approach that we have seen drive incredible results.

Learn what works; improve methods, processes and controls; expand portfolio

AI Transformation Coach – Examples of specific AI work with clients

Identify and pilot use cases, deploy tailored AI agents, and support secure, ethical AI adoption at scale

AI Co-creation

- Help organisations understand their challenges, co-create tailored solutions with AI, and validate outcomes to drive measurable impact and innovation.

Agentic AI

- Deploy pre-packaged capabilities and accelerators as bespoke AI agents.
- Build multi-agent workflows for more complex tasks, deployed with an AI synchronisation platform or landing zone.

AI-as-a-Service

- Ensure secure, ethical, and value-driven AI adoption:
 - **AI Governance** - How do I apply AI ethically and efficiently?
 - **Data Transformation** - How do I prepare data into clean, structured format for AI use?
 - **ModelOps** - How do I operate this today and in future to maximise business value?
 - **AI Security** - How do I protect my AI tools and outputs?
 - **AI Transformation Coach** - How do I adopt, apply, and mature the use of AI within my organisation?

AI Transformation Coach – Benefits

- Faster path from ideas to production outcomes.
- Reduced risk through strong governance and controls.
- Clear priorities based on value, feasibility and risk.
- Compliance with privacy and emerging regulation.
- Increased stakeholder confidence and executive alignment.
- Higher adoption through practical change and enablement.
- Stronger data foundations for AI at scale.
- Avoids costly pilots that don't translate to value.
- Builds internal capability, reducing long-term dependency.
- Measurable benefits tracking to prove impact.

About Version 1

Version 1 at a glance

29 years of experience

13 global locations

6 strategic technology partners

13 years as a great place to work

Industry best practice

€364M+ revenue 2024

82% employee engagement score (Q2 2025)

85% customer satisfaction score (Q2 2025)

The Version 1 difference

The core values at the heart of Version 1's success.

**Honesty and
integrity**

**Personal
commitment**

No ego

Customer first

Excellence

Drive

Looking forward: Our ESG targets, goals & achievements

A-

score for Carbon Disclosure Project reflecting our sustainability practices (Industry average is a C)

Volunteering hours delivered by employees globally

80%

key suppliers with sustainability targets by 2025, we are committed to reducing environmental impacts across our supply chain through responsible sourcing and partnerships

217

Version 1 Impact Investors supporting our global Community First programme which aligns to the UN Sustainability Development Goals

Bronze

Ecovadis rating reflecting our ESG maturity across our strategic focus areas

930

Women in Tech members

Our four strategic ESG pillars:

**Environment
sustainability**

**Ethical
Practices**

**Responsible
Procurement**

**Social
Impact**

As a participant of the United Nations Global Compact, Version 1 is committed to aligning strategies and operations with universal principles on human rights, labour, environment and anti-corruption

Our services portfolio

Application Modernisation and Integration

Accelerating the modernisation of applications embracing sustainable engineering and AI-assisted development.

Legacy systems modernisation

Continuous modernisation

Next Gen Apps

Integrated Apps

Portfolio modernisation

Experience Design and Development

Designing, shaping and building products and solutions that deliver fantastic people and societal experiences.

Digital strategy and innovation

Product management and roadmaps

Behavioural research, analysis and journey mapping

Creative design and UX services

Product development and AI accelerated engineering

Envisioning and innovation workshops

Enterprise Applications

Optimising the core of your business with deep functional and technical expertise in Finance, People, Customer and Enterprise Performance Management (EPM).

Reshaping finance for the future

Elevating HR and people operations

Enhancing supply chain management

Amplifying customer touchpoints

Realising value with Data insights and AI

Data x AI

Becoming an intelligent, data driven organisation needs quality data x AI to make better decisions and processes.

Data strategy and architecture

Data engineering

Data analytics and visualisation

Data modernisation
