

Cloud Migration and Modernisation Services

Cloud migration and modernisation: essential to keep pace

"Businesses that follow the lead of cloud migration outperformers stand to unlock some **\$1 trillion in value.**"

McKinsey

"83% of migration projects fail. More than 50% exceed their budget. But **more than half of IT spending** in key market segments will shift to cloud by 2025."
Gartner

"The cloud migration market size is expected to grow from **\$181.31 billion in 2023 to \$628.83 billion by 2028**, at a **CAGR of 28.24%** during the forecast period of 2023 to 2028."

Mordor Intelligence

Cloud is both the foundation and accelerator to unlock new or deliver enhanced business value and innovation. With the transformative power of generative AI and emerging technologies coming into play, now is the time to consider cloud migration as an enabler to access and accelerate that innovation.
