Overview

Civica Financials is a comprehensive, easy-to-use financial management information system (FMIS). It's developed to meet requirements of the UK public sector.

Designed in partnership with our user community and backed by over 30 years of market knowledge and expertise, Civica Financials delivers: General Ledger, Budgeting, Debtors, Cash and Asset Management, Procurement (P2P) and Creditors.

In addition, it provides extensive reporting, business information dashboards, and alerts.

Our software supports the UK local authorities' drive towards digital transformation and the need to minimise capital expenditure.

We deliver it as a fully managed service from our secure, resilient, UK-based cloud platform, so you don't have to invest in or manage technical infrastructure to keep your FMIS running. Instead, you can redirect those skills and resources where they can deliver added value.

Pricing

Modules

Civica Financials is a modular system, allowing users to define and increase the scope of their system as required.

Indicative pricing for the following three core modules is below: -

- **General Ledger**

With virtually unlimited user-defined coding levels, it includes a variety of journal options, unlimited budget types, profiles and commitment accounting, all with online validation to minimise errors.

- **Creditors**

Streamlines standard creditor transaction processing, to provide all the vital information about your creditors' invoices and payments. This ensures creditors are paid promptly and efficiently to meet Payment Performance Indicator timescales.

Full VAT and CIS capabilities included as standard, with an online supplier portal available.

- **Debtors Ledger**

Automates invoicing and collections processes. This ensures that charges on citizens and third parties, and payments made by them, are managed effectively and efficiently – helping reduce the costs involved in billing and collections.

Customer Banding	Annual Fee
Small - District authority with a population of up to 110,000 population	£ 118,000
Medium - District or Unitary with a population of up to 195,000 population	£ 164,750
Large - local authority with a population of over 195,000	£ 240,000

Please note that these costs do not include any implementation services.

There are numerous additional modules and features available to support the core Financials system which include, but are not limited to:

- Purchasing
- Procurement P2P
- Bank Reconciliation
- Contract Management
- Asset Management
- Budget Preparation and Forecasting
- Intelligent Invoice Processing
- Advanced Reporting, including customisable dashboards
- Making Tax Digital
- API suite for integrating with 3rd party systems

Due to the site-specific nature of these products coupled with customer-specific deployments, prices for these additions would be on application.

Implementation Services

Licence, Implementation, Onboarding, and Services, including setup of optional modules, are priced separately depending on specific requirements and based on Civica's rate card.

If upgrading to Civica Financials from an existing solution, we ask that you contact us to clarify data migration requirements.

Please contact us for further clarification.
