

Civica eLearning Content

eLearning content that's tailored to your learning messages, programmes and objectives

Whatever your learning topic – induction and onboarding, compliance, leadership development or others – Civica eLearning and microlearning content improves knowledge, skills and performance.

Why choose Civica eLearning Content?

Our team of highly creative instructional designers and media specialists create eLearning and microlearning content that increases engagement and enhances learning experiences.

We'll listen to what you need and work with you to achieve the best results. By sharing our expertise on design, messaging and user experience, we'll help you transform your learning offering.

We use creative designs, interactive videos, animations, game-based techniques, and virtual reality (VR) to produce engaging and effective eLearning content.

If you have existing content that's in need of an update to reflect new policies, procedures, legislation or other elements impacting your organisation, we can refresh it to deliver the modern learning experiences your learners need.

Civica eLearning content can be delivered via the Civica Learning Management System (LMS) or your organisation's own LMS.

Features

- Fully branded for familiar look and feel
- SCORM 1.2 and Experience API compliant
- Optimised for desktop and mobile
- Designed and developed using the latest authoring solutions
- Incorporates knowledge checks including assessments, quizzes and surveys to validate learner knowledge

Benefits

- Customised eLearning and microlearning content that meets your learning needs
- No barriers to learning – with content available across all platforms and devices
- Improved staff performance with relevant training
- Increases engagement using video, animation and gamification.

Welcome to Civica

Civica is proud to be the UK's largest software company focused on the public sector, which we have served as a trusted partner for over 30 years.

Our products and services are used by 2.5 million professionals across national, regional and local government, health and care, housing, education and democracy. They deliver improved outcomes for 90 million citizens.

Our deep sector and technology expertise helps our customers to meet unprecedented challenges as they sustain and enhance public services. Through greater digitisation and automation, a growing use of cloud solutions and smart use of data, we help address rising citizen expectations for innovative and efficient public services around the world.

We have a strong commitment to delivering social value and sustainability, which includes supporting our customers' Net Zero ambitions, creating software with sustainability built in and reducing our own impact on the planet.
