

ECLIPSE PEP

An effective case management solution and plan creation tool that allows multiple agencies to collaborate

ECLIPSE PEP provides a secure, cloud-based platform for management of your Personal Education Plans. Information can be collected, stored and shared securely with professionals and partners on any device. The flexible nature of the ECLIPSE platform means that PEPs are easily created or amended locally to your needs.

Service Description

ECLIPSE PEP ensures that Local Authorities have an effective case management solution and plan creation tool that allows multiple agencies, including the family, to collaborate on the PEP from any location, on any device. The easy-to-use interface and task management features of ECLIPSE ensure professionals know what is expected of them, and when, driving up quality, consistency and completion rates.

Our solutions provide management oversight of the whole process to ensure your partners are meeting the timescales, whilst also giving the Virtual School and easy to use, intuitive tool to support their day-to-day work.

Saving Money, Creating Efficiency

Working in conjunction with Virtual Schools, we have developed a solution which automates administration tasks, therefore reducing the burden on your teams to focus on the things that really matter to your clients.

Further, ECLIPSE ensures partners can access information anywhere, anytime regardless of their role in the process, to provide an efficient way of co-production and review of the PEP.

Informing your Citizens

ECLIPSE can be delivered with a citizen front end. Children and their carers can access all information about their PEP and care record.

Welcome to Civica

Civica is proud to be the UK's largest software company focused on the public sector, which we have served as a trusted partner for over 30 years.

Our products and services are used by 2.5 million professionals across national, regional and local government, health and care, housing, education and democracy. They deliver improved outcomes for 90 million citizens.

Our deep sector and technology expertise helps our customers to meet unprecedented challenges as they sustain and enhance public services. Through greater digitisation and automation, a growing use of cloud solutions and smart use of data, we help address rising citizen expectations for innovative and efficient public services around the world.

We have a strong commitment to delivering social value and sustainability, which includes supporting our customers' Net Zero ambitions, creating software with sustainability built in and reducing our own impact on the planet.

ECLIPSE PEP

Features

- Secure access for a range of professionals
- Access on any device
- Easy to use interface with embedded help
- Mobile capability
- Secure access to records

Benefits

- Improved PEP completion rate and consistency
- Locally configurable PEP
- Improved communication channels between professionals
- Oversight for the Virtual School
- Task reminders and configurable processes

Additional information

ECLIPSE has been developed to allow and support extensive configuration. End users can customise the system to meet their specific requirements and business needs without support from the supplier.

Workflows can be created and deployed to meet changing business requirements on the fly. Intelligent forms with in-built logic and data mapping to define data flow across multiple forms can be created and edited by specified users.

Users with appropriate rights can modify the entries in Drop down lists to meet a change in terminology or requirements..
