

Civica Cashless Catering

Cloud cashless software for school catering operations

A highly available, robust and secure cloud native solution, Cashless Catering is intuitive and user friendly, designed to be easy to use for both staff and students alike, boasting comprehensive features and unparalleled uptime. Civica are leading the charge, supporting schools in delivering nutritious, compliant and cost-effective meals efficiently and on-budget, whilst minimising operational costs and reducing food waste. All on the cloud. All without downtime. Guarantee lunchtime runs smoothly and on time, every time.

Why choose Civica Cashless Catering?

Cashless catering systems help schools to make significant cost and time efficiencies, utilising pre-order and online payment systems to promote menu choice, increase sales and enable catering teams to reduce waste.

EPOS and cloud-based ID management systems increase throughput at mealtimes, enabling catering staff to serve students quickly and efficiently, reducing the delays associated with cash and preserving the anonymity of free school meals.

Our cashless solution provides centralised teams with the tools they need to manage and report on cashless catering in their authority. With centralised oversight of prices, products and stock management, comprehensive reporting and effective communications functionality, councils can see the bigger picture while still being able to focus on the detail.

Features

- User-configurable security with multiple levels of access
- Pro-active monitoring to track performance and troubleshoot issues
- Comprehensive analytics dashboards for schools, MATs, Caterers and Local Authorities
- Easier integration across Management Information System (MIS), online payment and kitchen management solutions
- Flexible communications functionality, including scheduling

Benefits

- Increase throughput and improve mealtime efficiency across the council
- Reduce the amount of cash being taken to schools, minimising the risk of spending on unhealthy foods offsite
- Helping you meet health and wellbeing objectives
- Easily manage allergens across all schools, making catering safer and more sustainable
- Hardware agnostic. Use your own hardware if it is up-to-spec
- Centralised processes and visibility
- Make better decisions based on insight gathered from across all schools.

Welcome to Civica

Civica is proud to be the UK's largest software company focused on the public sector, which we have served as a trusted partner for over 30 years.

Our products and services are used by 2.5 million professionals across national, regional and local government, health and care, housing, education and democracy. They deliver improved outcomes for 90 million citizens.

Our deep sector and technology expertise helps our customers to meet unprecedented challenges as they sustain and enhance public services. Through greater digitisation and automation, a growing use of cloud solutions and smart use of data, we help address rising citizen expectations for innovative and efficient public services around the world.

We have a strong commitment to delivering social value and sustainability, which includes supporting our customers' Net Zero ambitions, creating software with sustainability built in and reducing our own impact on the planet.
