List pricing is provided in USD. Final contract pricing will be in GBP and will reflect the exchange rates at time of contract.

We strongly encourage clients to take out a call-off contract for any additional assistance that might be required. For example, we can use this to provide facilitation for implementation workshops where an independent facilitator is preferred, or for workshops considering particularly large or complex systems. The call-off can also be used for any client-specific system requirements that might be requested.

Rates and expenses are exclusive of VAT.
