2 TECHNOLOGY DELIVERY SERVICES – PORTFOLIO, PROGRAMME AND PROJECT MANAGEMENT (P3M).

We provide Delivery experts who bring a fusion of deep technical expertise and industry best practices to our customers. We excel in managing diverse, cloud-focused projects, turning complex scenarios into clear, actionable outcomes. We provide Portfolio, Programme and Project Management services to strategically align project initiatives with your organisational goals.

KEY FEATURES

- Full ownership of Portfolios, Programmes and Projects
- Experienced delivery practitioners with a comprehensive understanding of cloud technologies
- Risk Management: quantitative assessment to mitigate risks
- Timely and appropriate governance, escalation and decision-making support and assurance
- Partnership working enabling knowledge sharing and development of client staff
- Waterfall and Agile pragmatically applied by qualified and experienced staff

KEY BENEFITS

- Flexible ensuring a partnership approach to providing P3M services
- Robust delivery of Cloud Service Portfolios, Programmes and Projects
- Our team helps you embed P3M delivery excellence
- Effective leadership and planning for your Portfolios, Programmes and Projects
- Increased confidence in output delivery
- Effective risk mitigation ensures control and visibility of risk
- Full focus on Cost, Time and Quality delivering outcomes and milestones
- Ability to rehabilitate failing programmes and projects
- Structure, pace and urgency to realise your programme benefits

3 PROJECT MANAGEMENT OFFICE (PMO) AS A SERVICE.

At UBDS, we understand that each organisation is unique. That's why our Project Management Office (PMO) services are custom-designed to support and guide your specific project management needs. We can assess the needs and structure of your existing PMO functions or work with you to set up a new one.

KEY FEATURES

- PMO experts who define or improve organisational capability
- PMO operating model, resource plan and implementation plan
- Demand forecasting
- Fast, flexible and scalable staffing
- Project-ready resources
- Fast and efficient onboarding

KEY BENEFITS

- Improves PMO for effective/efficient delivery by adopting best practice
- Monitors Portfolio, Programme and Project progress, risks and issues
- Outcomes-based PMO as a service
- Consistent quality of output to agreed SLAs and KPIs
- Enhances internal PMO capability for lasting change, through knowledge transfer
- Reliably embeds and continuously improves PMO processes
- Measurably improved capability maturity over the contract lifetime

4 IMPLEMENTING AGILE PRODUCT DELIVERY.

Unlock the potential of agile methodologies. UBDS understands that the path to successful Agile Product Delivery is paved with diverse challenges, especially in highly complex and regulated public sector organisations. We help organisations by combining our extensive cloud delivery experience with proven Agile, SCRUM, project, and product management methodologies.

KEY FEATURES

- Embrace a collaborative approach to product development with iterative cycles
- Expedite validation of product concepts and functionalities through rapid prototyping
- Foster a culture of continuous improvement with frequent feedback loops
- Agile Project Management (Scrum/Kanban) facilitating transparency, adaptability, and accountability
- Incremental Delivery by breaking down product features into manageable increments
- Agile Coaching and Training
- Performance Monitoring and Optimisation
- Includes all people aspects: organisational models, recruitment, training and upskilling
- Agile delivery practices and also hybrid models, e.g. water-scrum-fall

KEY BENEFITS

- Enhanced agility with flexible and adaptive approaches to product delivery
 - Accelerated Time-to-Market, streamlining the product development lifecycle with agile methodologies
 - Improved stakeholder satisfaction throughout the development process with continuous feedback
 - Reduced risk through iterative development cycles and incremental delivery
 - Increased collaboration and communication among cross-functional teams
 - Enhanced product quality through regular testing, validation, and feedback
 - Adapt to changing priorities with ease, leveraging adaptive planning techniques
- Cultivate a culture of continuous improvement and learning
