# About CMC

## We put people at the heart of change

CMC is a multi-award-winning SME consulting firm specialising in change and transformation for over 20 years. We work with the UK public sector and global private sector organisations helping them to achieve their strategic goals and leaving them stronger and better equipped for the future.

We are employee-owned. This means all our people have a vested interest in delivering a superb service to our customers – one that keeps them coming back again and again. And as we don't set sales targets, our people can focus on what they are there to do – help you with your change.

- We recruit people who are passionate about what they do and committed to delivering excellent work for our customers.
- Our people include thought leaders in their field, international keynote speakers and published authors.
- They combine multiple delivery capabilities to provide wide-ranging transformational support services, using their expertise to shape delivery into the right approach for our customers.
- We are in our element when engaging with others and bringing change to life.

Totally committed, flexible and always reliable and positive in the face of sometimes incredibly challenging asks, timescales and stakeholders.

# Our core capabilities

Dedicated account manager to assure your satisfaction

Extensive network of experienced consultants to meet your needs

Flexible, effective use of time and resources to deliver value

|                                 |                                                                                                                                                                                                                                                                                                                                                                                                                            |
|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Change and transformation       | <b>Focusing on the people side of change</b><br>From cloud and AI adoption, to digital transformations or cultural change programmes, we work with organisations to unlock opportunity, tackle complexity, and deliver standout results. With Prosci® at the heart of our approach — enhanced by a suite of proven change capabilities — we help you embed change in a way that drives real performance and lasting value. |
| Product and delivery management | <b>Making delivery happen</b><br>From migrating to the cloud to enterprise digital transformation programmes, our delivery services help businesses to focus on strategic priorities and the delivery approach they need to succeed. Waterfall, agile or hybrid, our specialists have the tools and experience to ensure you deliver.                                                                                      |
| Comms and engagement            | <b>Getting everyone on board</b><br>Effective engagement and communication fosters inclusion, understanding and a drive to achieve shared goals. We can make your cloud transformation resonate with the right people, in the right way, at the right time.                                                                                                                                                                |
| Organisation analysis           | <b>Setting the right foundations</b><br>In the digital and cloud era, organisation analysis is more in demand than ever before. From product or service development enhancement, assessing readiness to migrate, decommissioning legacy systems, or improving organisational effectiveness, our experienced analysts can help you.                                                                                         |
| Data and insights               | <b>Informing decisions and driving value</b><br>Whatever an organisation's level of data maturity, we support clients to understand their data landscape and bring out the most value from it for their business. This enables them to make informed, data-driven decisions to optimise the return on investment in cloud technologies.                                                                                    |
| AI adoption                     | <b>Making best use of technology</b><br>We support businesses to adopt AI to achieve their strategic aims. From defining a compelling vision and creating a robust adoption roadmap, to quantifying the actual impact of the change, we actively engage your people to maximise the adoption and use of your selected tools.                                                                                               |

## Focus on our security services capability

### Ensuring safe and secure working

As digital practices and technologies evolve, so the risk of cyber attacks, disruption and unethical practices increases. Protecting the security of your services, information and assets becomes increasingly critical but also more challenging. Building cyber resilience and optimising protection is critical to maintain effective operations.

We provide a range of security services – from defining and implementing a cyber security strategy to establishing a cyber security operations centre, or from implementing DevSecOps and cyber incident response to implementing a zero trust network and embedding effective compliance and governance frameworks.

Our expertise ranges from co-creating the UK's cyber national incident categorization matrix to developing enterprise security architecture, defining and establishing digital service onboarding processes, and creating CyberOps CONOP.

**We supported the MOJ SOC team which won Incident Response Team of the Year 2025 at the National Cyber Awards.**

Our SOC is not an easy work area, they have been in a state of flux for a significant amount of time, and have to a point, grown resistant to change. The team have gone from knowing that something needed to be done, but unsure as to what, to having a fully realised plan of action that covers all areas of work. [CMC] has built it in a way that it can withstand the cultural resistance so I am confident the momentum will continue.

**Head of Security Profession, Government department**

[CMC] arrived at a just the right moment to help us [Security Operations] through a very difficult period and has done everything we asked and more. Their efforts were really appreciated at a challenging time in a challenging environment.

**Senior Manager, Government department**

[CMC] transformed the function into one of the best if not the best Incident Management function in the world.

**Deputy Director, National Cyber Security Centre**

[CMC's] dedication to this role is a continuing key factor in my team's ability to effectively monitor and defend the MOJ from cyber security threats. [CMC] has contributed to moving the SOC towards a greater maturity level.

**Senior Manager, Ministry of Justice**

# Quality delivery

## We make a difference

We may be a small company, but we are mighty in our approach to making a positive change in all that we do.

**Award winning client delivery:** Our focus on achieving successful delivery outcomes for our clients has won us **Technology Innovation Excellence 2026** at the Business Consultancy Awards, **Digital Transformation Project of the Year 2025**, and **Finalist for Best Culture Transformation 2024** at the Change Awards. Other client awards include: Excellence & Integrity, Impact, Creative & Innovation Excellence, Collaboration, Goal Focus, and Change & Innovation. Our achievement of Net Zero also helps you to meet your environmental goals.

**Award winning employee support:** From winning wellbeing awards, to introducing volunteer days to support charity and community initiatives, we embrace social value as part of our intrinsic company culture. We are genuinely committed to supporting our people to be happy and healthy, and to making a positive impact on society.

## We assure our delivery

The quality of our services is evidenced through our corporate accreditations which include:

- ISO 9001: assurance that our services are managed and delivered to a high standard
- ISO 27001: confidence that our systems and data are well-managed and stored securely
- ISO 14001: evidence that we are committed to minimising our impact on the environment
- Cyber Essentials Plus: peace of mind that our systems and data are robustly protected

# Service provision details

## ■ Service management

As service scale, complexity and required operating arrangements vary significantly between customers, we agree tailored service management arrangements with the customer at service start. We designate account managers to act as the primary point of customer contact, and to assure service delivery quality and customer satisfaction. They are practising consultants, who work closely with customers to understand not just service deliverables but also the culture and business strategy. This ensures highly effective service delivery and adds value. We do not offer technical support services as they are not relevant to the services we provide; however, CMC resources work flexibly to support the delivery of pre-agreed customer requirements. Our consultants are available to speak to on the phone or via Teams or email as required. Standard availability is Monday-Friday 09.00-17.30hrs.

## ■ Service scoping

At service start, we scope full requirements together with the customer and agree an appropriate model and approach for optimum delivery.

## ■ Mobilisation, on-boarding and off-boarding

We work closely with our customers to ensure efficient entry and exit to and smooth running of our services. At service close, we hand over deliverables to a nominated client representative and ensure skills and knowledge transfer is complete.

## ■ Service levels and performance

Where appropriate, we agree service levels and performance measures which are relevant to the contract. Our account managers track customer satisfaction informally on an ongoing basis and also take regular formal customer feedback. Our feedback encompasses areas such as achievement of deliverables to time and quality, overall performance, specialist knowledge and skills, personal impact and skills transfer.

## ■ Pricing overview

Pricing includes time and materials delivery against our rate card; however, we also offer other mechanisms such as fixed price and milestone payments. As services required vary significantly in terms of size and complexity, specific rates and payment mechanisms, including any volume discounts, will be discussed and agreed with the customer based on the programme of work and experience required.

## ■ Ordering and invoicing process

Prior to service commencement, we agree with the customer the scope of services required and service specification, to be documented in the call-off contract and purchase order. Invoices are submitted monthly in arrears, payable within thirty days.

## ■ Assurance and business continuity

CMC is ISO 27001, ISO 14001, ISO 9001 and Cyber Essentials Plus accredited. All our resources are as a minimum Baseline Personnel Security Standard (BPSS) cleared, and many are security-cleared (to SC and DV). Data backup/restore and disaster recovery are not relevant to the services we provide; however, we have business continuity and disaster recovery plans in place as part of our ISO 9001 accredited Quality Management System.
