

SQOD/MEDIO: Consult Pricing

The pricing is based on a per active user license model. This allows customers the flexibility to give licenses to their entire team, but the customer will only be charged for the users that make a call through the platform.

Dependant on the number of active user licenses purchased prices range from **£29.33** per license/per month (minimum purchase of 5 licenses applies) through to **£17.60** per license/per month for 2000 licenses.

The team are available to discuss any bespoke pricing that may be required so please do get in touch.
