Supporting the Scottish agile
community since 2012

Your partner in agile...

- **Since 2010, we've been supporting organisations of all sizes with digital transformation and their agile journeys**
- **We are based in Scotland and are a long-term supporter of the Scottish agile community**
- **We are highly conscious every organisation is different. Our approach is centred around co-developing your approach to agile**
- **Our team, Clan Calba, includes experts across agile coaching, delivery management, product ownership, UI/UX, architecture, software development, and DevOps.**
- **Our services include:**
 - **Agile Coaching – we make sure agile works for you**
 - **Agile Training – introductory, practitioner and certified training and workshops, online or in-person.**
 - **Agile Delivery – our experienced agile and digital specialists working with your teams to deliver value early**
- **We provide a flexible and practical approach to delivering our services.**

Introduction

Below are rates for our most popular training courses. Please contact us for any training not listed. Rates are based on:

- an in-person course in the Scottish Central Belt with the client providing the training room and resources. For other locations travel expenses may apply; or
- a private live virtual class (online) over Zoom or MS Teams

Calba can also host in-person training at our offices in Edinburgh Park and provide catering. Please enquire for costs.

Courses are also available on our public schedule – <https://www.calba.com/training>.
