Confidential Information

This proposal is confidential to Infosys Limited ("Infosys") and Crown Commercial Services ("CCS"). This document contains information and data that Infosys considers confidential and proprietary ("Confidential Information").

Confidential Information includes, but is not limited to, the following:

- Corporate, employee and infrastructure information about Infosys
- Infosys' project management and quality processes
- Customer and project experiences provided to illustrate Infosys capability

Any disclosure of Confidential Information to or use of it by a third party (i.e., a party other than CCS), will be damaging to Infosys. Ownership of all Confidential Information, no matter in what media it resides, remains with Infosys.

Confidential Information in this document shall not be disclosed outside the buyer's proposal evaluators and shall not be duplicated, used, or disclosed – in whole or in part – for any purpose other than to evaluate this proposal without specific written permission of an authorised representative of Infosys.

1. Service Overview

In an ever-changing technological landscape, Infosys helps clients transform into **Live Enterprises**, enabling them to deliver **exceptional experience** and **exponential business value** across their ecosystem, through continuous learning and contextualised innovation.

We provide services covering the whole spectrum of analytics performed in an organisation, from insights and modelling to AI and ML. We also enable mining of value, through embedding analytics in the enterprise's processes and systems. Through technology and consulting, we ensure the adoption of scientific decision-making across the enterprise, rather than in pockets / silos.

Infosys is Incorta's preferred partner. Incorta's enterprise analytics platform aggregates complex business data in real-time, bypassing the need for a traditional data warehouse. Incorta provides unprecedented query performance, eliminates costly joint operations altogether and reduces the time required to roll out new analytics applications from months to days. Infosys works with Incorta to deliver joint Go-To-Market campaigns, implementations and solutions as well as roadmap consultation and planning for usage of new releases.

This partnership provides exclusive and extensive support to Infosys for post-sales implementation projects. This also involves activities, which require joint involvement of Incorta and Infosys towards delivering an optimised support and solution to the client.

Incorta's enterprise analytics platform **aggregates complex business data in real-time**, bypassing the need for a traditional data warehouse. Powered by the industry's first **Direct Data Mapping™** engine, Incorta provides **unprecedented query performance** and eliminates costly join operations altogether.

Below are the **benefits** Incorta provides:

- Aggregates complex business data in real-time
- Pre-built applications to accelerate deployment and minimise cost
- Deeper insights with AI/ML
- Empowering Users with Self Service Analytics
- Incorta acts as a "bridge" between EBS and ERP Cloud data.
- Integrate out-of-the-box with database sources including Oracle, IBM, Microsoft, etc.
- Ad Hoc Capabilities
- Improved, simplified data security
- No data warehouse required
- Hosted on the cloud or run on-premises.

Infosys is one of Incorta's implementation and technology partner, to deliver successful data analytics and reporting solutions and enables maximised return on investments for Cloud and On-premises applications.

2. Service Description

With more than 50 Incorta trained consultants, we have a dedicated Incorta training lab and programmes that also cover Joint Go-To-Market campaigns, implementations and solutions with Incorta and roadmap consultation and planning for usage of new releases. Our services include license re-sale, consulting, implementation, configuration and support, with the following specifics:

- Implementation of Incorta platform
- Process based offerings.
- Rapid implementation Cycle
- Build and configuration assisted by pre-build accelerators and vertical solutions
- High level skill-based consulting
- Interfaces with external systems
- Testing and system deployment
- User training
- Post go-live support and maintenance

3. Credentials

Please find below some of our credentials:

Client	Description of Implementation/ Services
Beverage Giant, owning a Retail Chain	Move data from EDW to Incorta, with processing 35B transactions in 2-3 load window.
European Autoparts Distributor	Implemented Incorta for Enterprise Analytics for over 30Bn transactions, complex calculations and margin, pricing, cash flow details, Drill Down reporting from CFO level to Store Manager Level. Hourly refresh of critical KPIs.
Oil Country Tubular Goods (OCTG) Distributor	Transform traditional reporting and analytics by implementing Incorta as the unified data and analytics platform for Oracle E-Business Suite (EBS), delivering speed, visibility, and agility while reducing dependency on IT and consulting resources. Price Prediction AI Use Case: Implement predictive analytics for pricing strategies leveraging historical EBS data and external signals. Platform Support & Maintenance: Continuous optimisation, monitoring and governance for sustained performance and reliability.
