Education Product Pricing

At Everway, we are committed to transparent and inclusive pricing that reflects the varied needs and sizes of the organisations we support. The pricing information provided here applies to the UK Schools sector and is for guidance only. It should be considered indicative reference pricing for a single product on a one-year subscription basis. Prices are not fixed and are provided to G-Cloud 15 for information purposes only.

Where pricing is banded, bands are applied progressively. This means that student numbers are charged across multiple bands where applicable, rather than a single band rate being applied to the total enrolment. Discount may be applied depending on a combination of products, contract length, organisation scale (multi-academy trust, local education authorities) and scope of implementation. All prices listed are exclusive of VAT.

Workplace Product Pricing

At Everway, we are committed to transparent and inclusive pricing that reflects the varied needs and sizes of the organisations we support. The pricing information provided here applies to the workplace sector and is for guidance only.
