

Portfolio, Programme and Project Management Services

BAE SYSTEMS

We are Techmodal

A collaborative data consultancy, bringing the capability and creativity you need to unlock the strategic potential in your data.

As Defence and Government experts, we understand the unique complexity of your constraints. Adaptive, imaginative and iterative, we meet you where you are – and start with what you have.

We focus on making more of your existing tools and technology. Applying smart thinking and continuous improvement to uncover the insight in your data – and help you move past your stickiest problems. Optimising your investments, operations and outcomes. Maximising the impact of your resources towards a better future.

Our clients operate in high-stakes, highly technical and highly secure environments. The pace is fast; the demands are complex and the cost of getting decisions wrong is high. They need partners who bring clarity, precision and practical expertise – not complexity for its own sake.

Our value comes from combining deep analytical strength, applied technology expertise and hands-on consulting experience. We turn ambiguity into clarity and insight into action.

What we offer

We operate at the cutting edge of digital innovation and at the heart of organisations that keep vital infrastructure running, national security protected, and armed forces prepared. Our teams provide:

Decision advantage

We give organisations the insight to act with clarity and pace, ensuring choices made today hold up under tomorrow's pressure.

Our strength comes from being data-led, operationally aware and grounded in real-world context. We explore options, test scenarios and highlight trade-offs before action is taken, building confidence in complex and high-consequence environments.

Technology that works

We help organisations unlock the full value of their technology and existing investments. Our solutions are shaped to our clients' environments – secure, scalable and designed for reuse – delivering faster outcomes and greater value for money.

We stay user-driven, not technology-driven, ensuring what we build is usable, dependable and impactful.

Delivery impact

We work shoulder-to-shoulder with clients to turn ambition into results. Our approach is collaborative, adaptive and focused on rapid progress.

We build momentum early, provide clear answers before the conversation moves on and ensure delivery stays aligned to purpose. Whether defining strategy or supporting implementation, we bring clarity, structure and practical leadership.

Strength in secure and complex environments

All our work is delivered by security-cleared teams who understand the realities of Defence, national security and critical infrastructure.

We design and assure solutions that are resilient, secure and governed — engineered to work in environments where constraints are real and reliability matters.

Powered by BAE Systems Digital Intelligence

We combine the pace, creativity and agility of a specialist consultancy with the depth, reach and security of BAE Systems.

Clients benefit from a unique blend of niche expertise and enterprise-scale capability, with seamless access to Digital Intelligence, engineering, cyber and equipment programmes when required.

Service Overview

Techmodal provides Portfolio, Programme and Project Management (P3M) services across UK Public Sector organisations. Our P3M consultants are qualified in a broad range of disciplines including PRINCE2®, MSP®, Agile®, and APMP®. We provide P3M consultants to embed within your organisation, P3M teams to deliver projects, manage PMOs and project assurance, and specialists to advise on and develop optimised P3M processes. Techmodal P3M specialists bring broad and deep experience working within major projects, programmes, and portfolios across Public and Private Sector, using proven methods and tools. Sectors include Defence, Government, Rail, and IT. We adapt our approach to meet client requirements and embed into extant business processes, reducing risk and cost, and eliminating unnecessary change.

Service Features

Techmodal can partner with clients to deliver P3M objectives through a hands-on approach deploying within client and customer organisations to understand the work alongside the stakeholder base and staff at all levels. Rapid alignment with delivery team ensures we provide an effective P3M service to our clients whilst ensuring that our knowledge and experience is passed onto the key individuals within the delivery team. Techmodal P3M service offering includes:

- Portfolio, Programme and Project Management
- Portfolio, Programme and Project Management Office

Service Benefits

- Accurate understanding of P3 status inclusive of scope, cost and time parameters.
- Consistent alignment with strategic objectives, maximising contribution to long-term goals.
- Rapid insight into project performance, risks, and ROI, enabling informed decision-making.
- Continuous evaluation adapting to market conditions, technological advancements, and business priorities.
- Repeatable methodologies, leading to cost efficiencies in the long term.
- Leveraging industry-leading expertise in technology and digital transformation.
- Fully realised, quantifiable and reportable benefits.
- Efficient programme transition, knowledge transfer and upskilling.
