1 Pricing Structure

This document provides pricing information for MAIAR G-Cloud 15 Services offered under Cloud Software. All prices shown are exclusive of VAT, which will be charged at the prevailing rate.

1.1 Licence pricing

1.1.1 Enterprise Architect

Sparx Enterprise Architect (EA) software licences can be provided for individuals or as floating licences for use within an enterprise system. The initial licence fee includes twelve-month support including provision of software updates. After the first twelve months an optional subscription renewal can be purchased to extend this support for a further year (and can be repeated each year). License key will not expire, only the subscription. If not renewed, the current version of Sparx EA can continue to be used but cannot be updated it unless a renewal subscription is purchased. Subscriptions that have lapsed for 2 or more years will not be eligible for subscription renewals and the user will need to purchase new licenses if they wish to use the latest version of Sparx EA. MAIAR will be happy to advise potential clients on the selection of the most appropriate edition of Sparx EA for their intended use.

MAIAR is able to offer G-Cloud users pricing in UK currency based on the retail prices shown at <https://sparxsystems.com/products/ea/shop/>. Sparx EA pricing is reviewed every quarter and currency exchange rates are clearly dynamic, so firm prices cannot be provided. Indicative prices to 30 January 2026 (using the exchange rate of \$0.74 to £1) are provided in Table 1. Current prices are available on request from MAIAR Limited.

1.1.2 Pro Cloud Server

Pro Cloud Server is a powerful software product that enables multiple EA users to work collaboratively and to share their models across the enterprise with both EA and non-EA users. Retail prices are available on the Sparx Systems website (<https://sparxsystems.com/products/procloudserver/purchase.html>) and MAIAR can provide similar discounts and UK pricing. It is recommended that any client considering the possible use of Pro Cloud Server should engage with MAIAR to discuss the intended use case(s) to ensure that the chosen configuration and licensing options are fully aligned.

Product	Retail Price (USD)	Indicative G-Cloud Price (excluding 5% admin charge)
EA Professional	USD 245.00	£181.30
EA Corporate	USD 320.00	£236.80
EA Unified	USD 535.00	£395.90
EA Ultimate	USD 750.00	£555.00
Pro Cloud Server Token (annual)	USD 127.00	£93.98
Pro Cloud Server Team	USD 5,350.00	£3,959.00
Pro Cloud Server Enterprise	USD 8,555.00	£6,330.70

Table 1 – Indicative Licence Prices to 30 January 2026

1.2 Resource-based pricing

All additional services are resource based and prices are covered in the separate SFIA rate card document.

1.3 Firm Pricing

MAIAR is prepared to offer Firm Price projects where the scope and timescale can be fully bounded. MAIAR will be pleased to engage with the customer to develop a Firm Price schedule as desired.

1.4 Volume or Combination Discounts

Discounts may be applicable, for example holding rates across a fiscal year boundary or for contracts of substantial duration. MAIAR will be pleased to consider these discounts and to agree the scope of the Service during the ordering process described in the associated Service Definition Document.

1.5 Education pricing

This is not applicable to this service.

1.6 Unit based pricing.

Additional services pricing is based upon Man Days, the number of which (for either limit of liability or firm pricing) will be agreed during the ordering process. Man Day Rates are shown in Table 2.

Equivalent SFIA Grade	Industry Grade	Daily Rate
2	Admin Support	£1034.11
3	Analyst	£1375.48
4	Senior Consultant	£1440.81
5	Principal Consultant	£1517.60
6	Director/Senior Principal	£1689.88

Table 2 – Day rates for Additional Services

1.7 Sector Pricing

Our prices apply equally across all sectors.
