Combining our expertise with our alliance tech solutions, we harness the power of smart technologies. Together, we solve your most complex business issues to create sustainable success.

Enterprise Architecture Services

Service Description:

KPMG's evidence-backed Enterprise Architecture Services provide comprehensive support across the full architecture lifecycle. We help organisations review, strengthen, and mature their Enterprise Architecture capabilities, establishing clear architectural principles and ensuring all solutions remain tightly aligned to strategic business priorities.

Our experts work with you from initial design through to full delivery, enabling robust, secure, and scalable business and technology solutions that consistently adhere to EA principles. Drawing on proven methodologies and extensive experience collaborating with hundreds of C-suite leaders, IT decision-makers, and multidisciplinary specialists worldwide, KPMG delivers architecture services that accelerate transformation, reduce complexity, and create lasting enterprise value.

What are the benefits of KPMG Powered IT service?

- Validated and common "picture" of the enterprise, allowing faster decisions and transition state planning
- Enablement of strategy-driven IT/project investments for moving to cloud platforms and services
- Faster solution design due to reuse of common architecture views and artefacts (e.g. Reference architectures)
- Capability-focused and manageable change of the organisation
- Efficiency increases/cost savings in all architectural areas; overview of program portfolio in relation to strategy alignment, architecture development, and implementation status
- Establishment and enablement of an in-house architecture group that carries the benefits forward.

Our Service Features

- Identify where technology based solutions can benefit the line of business services and applications
- Clarify the impact of business goals and visions on current operations
- Align solution designs with business and IT strategy
- Establish common business and IT blueprints
- Create an investment plan and roadmap of initiatives and projects
- Govern and monitor the transformation of the business and realisation of intended benefits

Our Approach

KPMG proposes a well-defined approach that will assist in delivering a customized solution that meets your requirement. Using our EA maturity Assessment framework, industry experience and methodologies we will accelerate your journey to have a well defined, matured EA framework which is inline with your Business, Data, Application, Technical and Security Strategies.

Requirements

- Workshops engagement.
- Fully answered Current state assessment.
- Clear description of Business, Data, Security, Application and Technology strategy.

Activities

KPMG leverage a six-step process when working with our Enterprise Architecture clients.

- Design digital architectures and platforms that enable the business to be nimble in the
- face of change
- Review, support and develop your organisation's Enterprise Architecture capabilities (including stakeholder communications and your value proposition).
- Align you closer to the business to develop more effective principles, deliverables and
- guidance that's readily adopted.
- Support design and delivery of business and technology solutions conformant with EA principles.

Outcomes

Digital business value creation demands a flexible, scalable architecture that is governed in short cycles, through partnership with the business and increases the speed of return of investment through constant, smaller, iterative system changes.

High-Level Timelines

Our indicative timeline is based on our experience of delivering similar engagements for multiple organisations. Once engaged, we will work with you to create and agree a bespoke plan to meet your specified requirements.

Weeks: 3

Why KPMG

Top Professional Brand

KPMG has a strong brand and excellent reputation. We are focused on customer needs and have a pragmatic approach for the design and delivery of our Projects. Our team has a proven track record of delivering similar engagements and an intimate knowledge of challenges faced by our clients.

Constructive Input and Challenge

We consider it to be our responsibility to bring an independent perspective and constructively challenge existing processes and systems. We will highlight and share with you both internal and external leading practices.

We Employ a Collaborative and Integrated Team Approach

We deliver a full suite of evidence-backed recommendations in collaboration with KPMG sector and technical experts in all parts of our business around the globe. By working in multi-disciplinary teams, we can deliver holistic thinking and insights for even the most complex challenges.

We Have Strong Relevant Recent Credentials

We have worked across multiple industries and will bring insights from other sectors to challenge your thinking. We have vast Cloud and DevOps expertise within our technology practice in the UK region alone, who cover everything from hosting strategies to building landing zones. We produce agile, resilient and efficient IT functions that support the wider enterprise.
