- Open & Regular communications to ensure smooth operations
- Reduced business risk due to quick resolution of issues
- Fixed capacity for volume of GCP resources

Our Service Features

- Full Support for IaaS workloads
- Full Support for native PaaS Services
- System Design incorporating Security, Governance and Compliance
- End to End monitoring, management and alerting of cloud resources
- Large pool of SMEs for smooth operations of GCP environment
- Enhanced visibility through ITSM to track issues
- Enhanced communications with dedicated accounts manager for smooth operations
- Piece of mind, SMEs available to assist with technical issues
- KPMG would complete changes and upkeep of support infrastructure
- KPMG provide all frontline support, changes and upkeep

Our Approach

Our approach to GCP Managed Services involves proactive management, monitoring, and optimisation of your GCP environment. We focus on ensuring your GCP infrastructure operates efficiently, securely, and aligns with evolving business needs through continuous support and strategic guidance.

Requirements

Effective GCP Managed Services require comprehensive oversight of cloud resources, including automated management tools, expert knowledge of GCP functionalities, and strong security practices. Key requirements include continuous monitoring, incident management, cost optimisation, and adherence to compliance standards.

Activities

Continuous Monitoring and Management

- Implement 24/7 monitoring tools to track performance, usage, and health metrics.
- Manage GCP resources to ensure optimal performance and availability.
- Respond to and resolve incidents and anomalies promptly.

Security and Compliance Enforcement

- Conduct regular security assessments and compliance audits.
- Implement and update security policies and controls as per regulatory requirements.
- Manage identity and access controls to protect sensitive data.

Cost Optimisation and Resource Allocation

- Regularly review and optimise spending on GCP services.
- Implement cost-saving measures such as right-sizing resources and purchasing committed use discounts.
- Provide detailed reporting on spending trends and cost reduction opportunities.

Strategic Advisory and Reporting

- Offer strategic guidance to align GCP services with business objectives.
- Prepare and deliver regular performance, security, and compliance reports.
- Advise on emerging GCP technologies and integration opportunities.

Outcomes

Engaging GCP Managed Services results in a highly efficient, secure, and cost-effective GCP environment. This service ensures that your infrastructure not only meets current operational demands but is also scalable and ready for future growth. Organisations benefit from reduced operational overhead, enhanced security posture, and improved overall cloud management, enabling them to focus more on strategic business activities.

High-Level Timelines

Our indicative timeline is based on our experience of delivering similar engagements for multiple organisations. Once engaged, we will work with you to create and agree a bespoke plan to meet your specified requirements.

Why KPMG

Top Professional Brand

KPMG has a strong brand and excellent reputation. We are focused on customer needs and have a pragmatic approach for the design and delivery of our Projects. Our team has a proven track record of delivering similar engagements and an intimate knowledge of challenges faced by our clients.

Constructive Input and Challenge

We consider it to be our responsibility to bring an independent perspective and constructively challenge existing processes and systems. We will highlight and share with you both internal and external leading practices.

We Employ a Collaborative and Integrated Team Approach

We deliver a full suite of evidence-backed recommendations in collaboration with KPMG sector and technical experts in all parts of our business around the globe. By working in multi-disciplinary teams, we can deliver holistic thinking and insights for even the most complex challenges.

We Have Strong Relevant Recent Credentials

We have worked across multiple industries and will bring insights from other sectors to challenge your thinking. We have vast Cloud and DevOps expertise within our technology practice in the UK region alone, who cover everything from hosting strategies to building landing zones. We produce agile, resilient and efficient IT functions that support the wider enterprise.
