

KPMG Connected Healthcare Solutions

A KPMG Service for G-Cloud 15

Connected Healthcare Solutions

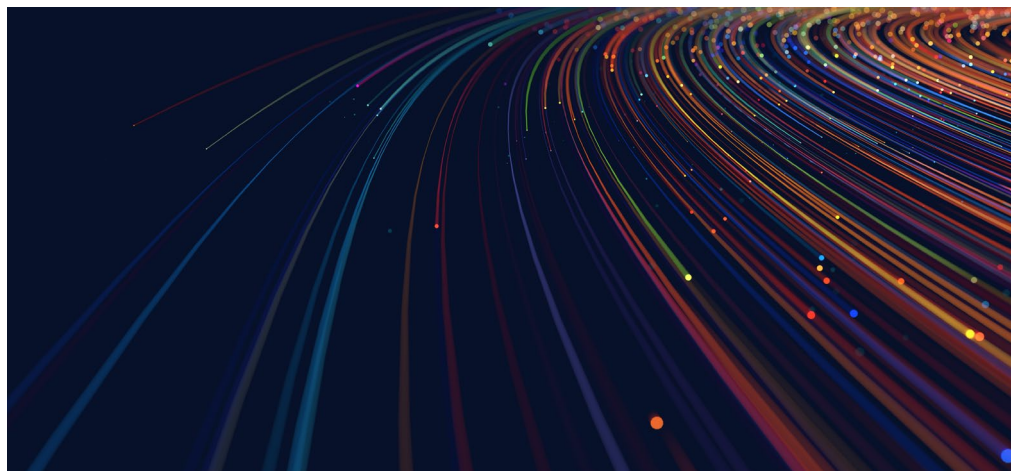

Service Description:

KPMG's Connected Healthcare Solutions platform provides access to a suite of products designed to address the challenges of delivering effective integrated care.

Using multiple technologies, including Microsoft's Azure Cloud and Power BI; Palantir's Foundry platform and Machine Learning alongside KPMG's own proprietary platforms we can derive value and understanding from your data. The product suite offers access to decision support, predictive analytics, process automation and patient tracking solutions that provide powerful MI solutions benefitting from KPMG's extensive global healthcare experience and expertise. Our solutions are designed to address the four uses of NHS data

1. Direct Care
2. Population health and proactive care
3. Planning, oversight and service improvement
4. Research and innovation

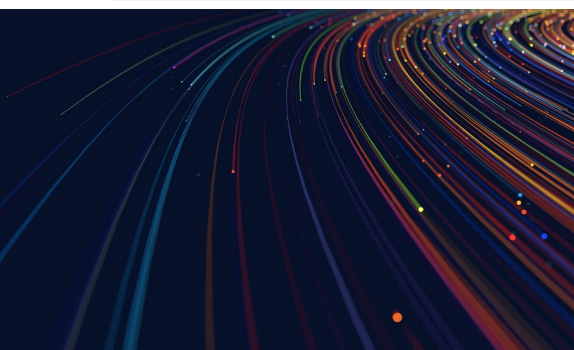

What are the Service benefits?

- Data integration and orchestration
- Dashboards and data visualisation
- Workforce planning solutions
