

Technology Transformation Management Office (TMO)

A KPMG Service for G-Cloud 15

KPMG Overview

KPMG is a global leader in the professional services industry, ranking among the “Big Four” accounting firms. With over 236,000 employees spread across 144 countries, KPMG has significant scale that allows us to provide diverse technology services, robustly and at scale.

From individuals and small businesses to multinational corporations, KPMG helps government organisations private sector business at all levels tackle their most complex business challenges.

KPMG's global network provides clients with access to both leading UK and global expertise and insights, ensuring that you receive tailored solutions, advice and support that are relevant to your specific needs.

KPMG is a frontrunner implementing cutting-edge technologies. We leverage artificial intelligence, data analytics, and blockchain to enhance services and to deliver innovative solutions. This commitment to technology ensures that KPMG remains at the forefront of the professional services industry, constantly evolving and adapting to meet the ever-changing needs of their clients.

KPMG's combination of technology transformation experience coupled with the support of a broad UK and global network makes us the trusted partner of choice for some of the UK's most challenging technology transformations.

Additional points:

- **Services:** KPMG offers a wide range of services including transformation advisory, technology, audit and tax services.
- **Industries:** KPMG serves clients across a variety of industries including government, healthcare, transport and financial services.
- **Culture:** KPMG is committed to fostering a diverse and inclusive workplace culture. We have been recognised for our efforts in promoting social mobility, gender equality and LGBTQ+ inclusion.
- **Sustainability:** KPMG is dedicated to environmental sustainability and has set ambitious goals for reducing our carbon footprint.

Technology Transformation Management Office (TMO)

Service Description:

KPMG's TMO service provides comprehensive support for your transformation journey. We leverage our deep industry expertise and proven methodologies to design, implement, and manage your transformation, ensuring successful delivery of your desired outcomes.

Key benefits

The TMO will keep your transformation on track and ensure it is both doing the right things and doing things right.

The TMO will identify, measure and realise benefits.

The TMO will embed change, ensuring a smooth transition to new operating models and maximise benefits of the transformation.

The TMO provides the essential structure and governance required to manage complex technology programmes to ensure successful delivery.

The TMO establishes a Design Authority to manage the design process, ensuring consistency, standardisation, and alignment of design interfaces and dependencies.

The TMO drives a benefits-led design process, identifying and defining benefits and creating a clear line of sight between target designs and strategic outcomes.

Key service features:

Comprehensive Transformation Support: end-to-end support for your transformation journey, encompassing Design Authority, Value Management, Programme Management Office, and Change Management.

Industry Expertise and Proven Methodologies: design, implement, and manage your transformation.

Focus on Value Realisation: identifies, measures, and realises financial benefits, leading to cost reductions and improved efficiency.

Effective Change Management: embedding change and realising value, ensuring a smooth transition to the new operating model and maximising the benefits of the transformation.

Strong Governance and Project Management: provides structure and governance, managing complex programs and ensuring successful delivery.

Our Approach

Given the complex, multi-disciplinary, stakeholder and technology landscape that most technology transformation programmes are delivered in, a TMO structure is often required to confidently deliver the intended benefits.

These help navigate this environment, foreseeing issues before they arise and manage the change accordingly. It will mobilise quickly, and swiftly put in place mechanisms to support the transformation in both doing the right things and doing things right.

Our TMO structure comprises four components:

- Design Authority
- Value Management
- Programme Management
- Change Management

Design Authority

- Custodian of the overall Business Architecture
- Manages the integrity of the solution design
- Focusses on the right solution to deliver the desired transformation outcomes

Programme Management

- Activities which control and govern the transformation programme
- Enables executives to have the visibility of transformation plans & progress
- Supports clear decision-making to achieve the desired transformation outcomes

Value Management

- Embeds strategic targets into transformation so that the highest value opportunities are prioritised and delivered
- Drives accountability and adoption to ensure that the value from transformation initiatives is captured and realised

Change Management

- Works across the transformation to accelerate the embedding of the changes
- Proactively manages the human-centred approach of transformation
- Develops a long term change management capability
