

HPE Aruba Networking SSE
Service Definition

xerox™

Transforming secure business access with HPE Aruba Networking SSE

Zero Trust Network Access (ZTNA)

Secure access to private applications in the data center or cloud enforcing zero trust principles.

*Secure third-party access,
VPN/VDI replacement, Accelerated M&A*

Cloud Access Security Broker (CASB)

Secure access to SaaS applications and protect against data loss.

Control block upload/download from Box, Sharepoint, Facebook, Salesforce

Secure Web Gateway (SWG)

Secure access to the Internet and protect against malicious online threats.

*URL filtering gambling/malware sites,
DNS control, SSL inspection for malware*

Digital Experience Monitoring (DEM)

Monitor digital experience and troubleshoot user access issues for all traffic.

Network ops for private & public traffic

xerox[™]

EdgeConnect SD-WAN Service Definition

xeroxTM

EdgeConnect Secure SD-WAN Platform

Improve app performance, streamline management, reduce hardware footprint

Built-in next-generation firewall including IDS/IPS, adaptive DDoS, URL filtering and role-based segmentation

Multi-cloud networking

Dynamic routing with BGP and OSPF support

App performance with SaaS and WAN Optimization & Path Conditioning

Network visibility and reporting

Automation and zero-touch provisioning

xerox[™]

Architecting a SASE solution

SD-WAN and cloud security for cloud-first enterprises

Steer apps intelligently

- Intelligent breakout of SaaS and trusted internet-bound traffic directly to the cloud

Improve SaaS performance

- Avoid backhauling traffic to the data center and improve SaaS application performance

Implement consistent security policies

- Eliminate application security and performance tradeoffs

Multi-Cloud Networking with EdgeConnect SD-WAN

Flexible, secure, SD-WAN cloud connectivity

EdgeConnect SD-WAN Next-Generation Firewall

Replace legacy firewalls in branch offices

Feature	EdgeConnect NGFW
Next-generation firewall	✓
Intrusion detection and prevention (IDS/IPS)	✓
Adaptive DDoS protection	✓
Attack detection and mitigation	✓
IP fragmentation flood mitigation, smart SYN cookie	✓
Web classification and reputation (URL filtering), IP reputation	✓
Application and access control through identity-based policies	✓
Role-based segmentation	✓
Cloud security integration (SSE)	✓
Security events logging	✓

ICSA Labs provides third-party testing and certification of security and health IT products, as well as network-connected devices, to measure product compliance, reliability and performance.

ICSA Labs Secure SD-WAN certification
