Pricing notes

All pricing in GBP £ ex-VAT.

Fixed annual, or quarterly in advance billing available for all packages

Monthly billing in advance also available for 5/10/20 days per month packages

Days allocated per month or quarter can be consumed within the quarter.

Unused days at the end of the quarter must be consumed within 2 months following quarter or else they expire

At end of subscription term, unused days can be carried over for up to 2 months if clients renews the contract for a minimum of another year

Customer contracts for a minimum term of 1 year. If they terminate then they pay the remainder of the current annual term due.

Note for the purposes of this service and document, a quarter is every 3 months starting on the first day of the subscription, and a month is every month starting on the first day of the subscription. So, for avoidance of doubt, quarters and months may not be aligned with calendar quarters and months unless the service subscription starts on Jan 1st.
